- Pentium II 350 MHz or higher processor
- 64 MB RAM
- 10 MB free hard disk space
- CD-ROM drive
- Available PCI slot
- Internet access (for updates)

## Important safety instructions

Before getting started, read these instructions and save them for later reference.

- Before you install your modem, read this user guide, in case special steps are required.
- Follow all warnings and instructions marked on the product.
- Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
- Do not use this product near water, for example, near a bathtub, wash bowl, kitchen sink or laundry tub, in a wet basement or near a swimming pool.
- Do not place this product on an unstable cart, stand or table. The product may fall, causing serious damage to the product.
- Slots and openings in the back or bottom of the product are provided for ventilation. To protect it from overheating, these openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface. This product should never be placed near or over a radiator or heat register. This product should not be placed in a built-in installation unless proper ventilation is provided.
- Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or short out parts that could result in a risk of fire or electric shock. Never spill liquid of any kind on the product.
- Do not attempt to service this product yourself, as opening or removing covers may expose you to dangerous voltage points or other risks. Refer all servicing to qualified service personnel.
- Unplug this product from the wall outlet and refer servicing to qualified service personnel under the following conditions:
  - When the power cord or plug is damaged or frayed.
  - If liquid has been spilled into the product.
  - If the product has been exposed to rain or water.
  - If the product does not operate normally when the operating instructions are followed. Adjust only those controls that are covered by the operating instructions. Improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal operation.
  - If the product has been dropped and the cabinet has been damaged.
  - If the product exhibits a distinct change in performance, indicating a need for service.
- Use only the type of power source indicated on the product label. If you are not sure of the type of power available, consult your dealer or local power company.
- Do not overload wall outlets and extension cords as this can result in a risk of fire or electric shock.
- Avoid attempting to use this product during an electrical storm. There may be a remote risk of electric shock from lightning.

## Package contents

**Make sure that the package contains the following items:**

- Dynex 56K V.92 Modem
- Line Extension Set (RJ-11/RJ-11)
- Dynex CD-ROM
- Dynex quick start guide
- Registration guide

## Installing your modem

**Caution:** Before you install your modem, read any system-specific instructions that came with your computer. If you have questions about your modem, you should contact your dealer or call the manufacturer. We also recommend that you have a qualified technician or computer expert assist you if you are not familiar with installing internal computer components.

**Caution:** Before installing your modem, make sure that you have the following items: a grounded wrist strap to discharge any static electricity that may build up in your body.

**Install your modem:**

1. Turn off your computer and unplug the power cord and all cables.
2. Remove your computer's case screws. Remove the metal slot cover that corresponds to the PCI expansion slot you want to use. Save the screw.
3. Locate an available PCI slot. Be sure the slot you select is not shared with another device. Refer to your computer's documentation if you are not sure which slots are available.
4. Carefully insert the modem into the slot. Be sure to push the modem firmly so that the gold edge connector is fully seated in the slot.

5. Fasten the modem with the screw you removed in step 3.
6. Replace your computer's case.
7. Connect one end of the telephone cable to the modem's RJ-11 jack. Connect the other end to the telephone wall jack.
8. Restart your computer and log on.
9. Follow the on-screen instructions.

After you have completed the steps in the previous section, "Installing your modem," you are ready to install the modem driver.

## Installing the modem driver

**If Windows Vista/Windows XP/Windows 2000 is installed:**

**Note:** Your computer may differ slightly from these images.

**To install the modem driver:**

1. When your computer starts, the **Found New Hardware Wizard** screen automatically opens. Click **Cancel**.

2. Insert the Dynex CD into your CD or DVD drive. The **Dynex PCI Modem** screen opens. If it does not, click **Start**, then click **Run**. In the **Open** box, type **D:\setup.exe** (where **D** is the letter of your CD or DVD drive), then click **OK**.

3. Click **Install Driver**.

4. Click **Next** at the **Welcome** screen.

5. Click **Next** at the **Select Modem** screen.

6. The driver is now installed. Click **Finish**.

7. Click **Yes** when asked to restart your computer.

## Troubleshooting

See troubleshooting suggestions here if you have problems installing your Dynex 56K V.92 modem.

**To install the modem hardware:**

1. Open the Windows Control Panel and double-click **Modems**. If **Modems** does not appear, click **Switch to Classic View** in the upper-left corner of the window.

2. In the **Modems Properties** window, click **Add**. The **Install New Modem** wizard starts.
3. Click **Don't detect my modem; I will select it from a list**, then click **Next**.
4. Click **Have Disk**.

5. Click **Browse**.

6. Select your drive (usually **D:**), then double-click the **Drivers** folder.

7. Select the folder for your operating system, then click **OK**.

8. Click **Next**. Windows installs the modem.
9. Click **Finish**.

**If Windows 98 SE, Me, 2000, XP, or Mac OS 9 or OS X is installed:**

1. Follow the on-screen instructions.
2. If you have problems installing your modem, see the troubleshooting section in the user guide.

## Print Quality Check

Check that the dotted lines forming the four color blocks are all visible with no gaps. If OK, select (Yes) on the control panel. If gaps are visible, select (No) on the control panel to start the cleaning process and follow the prompts on the LCD.

This Brother inkjet machine has been finely tuned to provide excellent, accurate and long lasting printed pages when using genuine Brother Innobella(TM) ink.

The use of non-Brother inks in this machine may potentially result in inferior output quality and/or machine damage.

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty.

We strongly suggest you use only Genuine Brother Innobella(TM) inks when it is time for you to replace the ink cartridge(s).

# Test Print

This printer is now ready for printing

After this, Quick Menu opens automatically

Quick Menu is a shortcut menu that lets you access functions you want to use with one click
You can access CREATIVE PARK PREMIUM, the Online Manual, etc

* The screen display varies depending on your printer

## CREATIVE PARK PREMIUM

You can download popular characters or artwork of famous artists and print them
**CREATIVE PARK PREMIUM is a premium content service available exclusively to customers who use genuine Canon ink for all colors.**

## Online Manual

The Online Manual is an instruction manual on the website. It contains the latest information needed for operations such as printing. You can also use it for troubleshooting when problems arise.

* An internet connection is necessary

## We Recommend Using Canon Genuine Inks

Canon genuine consumables (inks / printing paper) are developed especially for Canon ink-jet printers. We recommend using Canon genuine consumables to maintain printer performance and ensure consistency.

Random Stuff Sent From Your Fax Machine
Fax something interesting toll free to 1-866-330-1236 or t 213-294-2943

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and vote it for interestingness!

You can fax something interesting to 1-855-330-1236 (it's a toll free number if you're in the USA) or 1-213-294 2943 (long distance to Los Angeles, California) and it should appear here with a couple of minutes (your boss will never notice maybe) Keep it clean & legal

Fax single page documents with no cover sheet. If you fax more than one page only the last page will appear here. We try to strip off the top line and bottom line where your company name and fax number show up, but make no promises that this will actually work.

Privacy Policy: We hate spam and junk faxes and will absolutely not send you any unsolicited e-mail or faxes. We won't share your information with marketers or anyone else.

4 Se poate folosi faxul virtual in acelasi timp cu serviciul de internet cu banda larga?
Da este posibil. Atata timp cat puteti trimite si primi mesaje email puteti folosi faxul virtual pentru ca nu se bazeaza pe o linie de telefon speciala ci foloseste in schimb serviciul email
5 Care aplicatii de email functioneaza cu acest serviciu?
Daca emailul dumneavoastra este compatibil cu MIME puteti folosi faxul virtual.

## Patient & Order Information

Order ID: BDP18-000013
Patient Name: fgfg gfgfg
DOB (Gender): 1/1/1956 (M) 63 Yrs Old
Date Reported: 7/17/2018

## ADDITIONAL RESULTS APPLICABLE IF BCI ORDERED AT TIME OF DIAGNOSIS

**BCI Prognostic - Node Positive (1-3)**

**9.2% Risk of Overall Recurrence (years 0-10[1])**

**HIGH RISK CATEGORY**

**9.2% RISK[1]** (95% CI: 5.7% - 12.6%)
OF DISTANT RECURRENCE FOR ER+ LYMPH NODE POSITIVE PATIENTS FROM YEARS 0-10[1]
Based on patient's Clinical Risk when listed on page 1

1 Rate of Recurrence estimate is based on analysis of BCI Prognostic vs. independent validation cohort of patients with 1 positive nodes and no evidence of distant recurrence from years 0-10 post-diagnosis in patients treated with adjuvant chemotherapy and 5 years of adjuvant endocrine therapy (no extended endocrine therapy). See backup for additional details.

**BCI Predictive**

**LOW Likelihood of Benefit**

**LOW LIKELIHOOD OF BENEFIT**
FROM EXTENDED ENDOCRINE THERAPY[2]

BCI Predictive was validated in a cohort that would both N- and Up- node(s) patients. However, this study was not designed or powered to assess N- and N1b- groups separately

### Test Description and Clinical Evidence

BCI provides two outputs based on a quantitative gene expression (quantitative RT-PCR) signature, BCI Prognostic and BCI Predictive.

**BCI Predictive** provides a predictive Likelihood of benefit from extended (5+ years) endocrine therapy [ET].[2] Patient results for the test are reported as either High or Low Likelihood of Benefit. BCI Predictive is based on a validation of the HOXB13/IL17BR biomarker and was validated in the Node Positive (N+) cohort of the TransATAC study.[2,3]

**BCI Prognostic** provides a prognostic estimate of individualized late risk of distant recurrence in the years 5-10 (years 0-10 overall) for patients with 1-3 positive nodes (N+) and 0 positive nodes (N-) at diagnosis. The risk estimate is based on the BCI gene expression signature in combination with clinical tumor size and histologic grade. BCI prognostic for N- patients was validated in a blinded study of patients with 1-3 positive nodes who were treated with adjuvant endocrine therapy only.[1]

### Intended Use & Limitations

The Breast Cancer Index (BCI) Risk of Recurrence & Extended Endocrine Benefit Test is intended for use in patients diagnosed with estrogen receptor-positive (ER+), lymph node-negative (N-) or lymph node-positive (N+) with 1-3 positive nodes) early-stage, invasive breast cancer who will complete recommended HCI guidelines. It is a quantitative assessment of the likelihood of distant recurrence between 5 and 10 years after initial diagnosis and initial 5 years of endocrine therapy in N- patients or 5 years of endocrine therapy plus adjuvant chemotherapy in N+ patients, and 2) prediction of likelihood of benefit from extended (5+ years) endocrine therapy. BCI results are adjunctive to the existing physician's workup and clinical decisions remain consistent with all other clinical findings. This test was developed and its performance characteristics determined by Biotheranostics, Inc. It has not been cleared or approved by the U.S. Food and Drug Administration. This test is used for clinical purposes. It should not be regarded as investigational or for research. How this information is used to guide patient care is the responsibility of the physician. Biotheranostics is certified under the Clinical Laboratory Improvement Amendments of 1988 to perform high complexity clinical laboratory testing.

# Political Wit

Since it is an election year in several countries, this seemed a good time to pass on a very good example of political history and political wit. Benjamin Disraeli was British Prime Minister in 1868, and again from 1873 - 1880. Disraeli was a brilliant man and famous for his rapier-like wit.

As the story goes, one of Disraeli's most outspoken political opponents, William Gladstone, was addressing the the Parliament, railing at Disraeli's policies. Disraeli sat behind, and on a higher level than than the speaker, and kept kibbitzing throughout the man's speech, drawing chuckles and laughter from the members of Parliament.

## Canon U.S.A. Inc. LIMITED WARRANTY — (USA Only)

The limited warranty set forth below is given by Canon U.S.A., Inc. ("Canon USA") with respect to new and unused Canon brand product ("Product") packaged with this limited warranty, when purchased and used in the United States only.

This Product is warranted against defects in materials and workmanship under normal use and service for a period of one (1) year from the date of original purchase when delivered to you in new condition in its original container only. Warranty begins from the date of original purchase for refurbished Products. Prior, or returned to a Canon USA repair facility or a Canon USA warranted Service Facility ("ASF"), and proven to be in non-compliance in regard to the foregoing warranty, Canon USA, at its option, will repair, replace, exchange, or refund the purchase price for, any such defective Product, as determined by the Canon USA repair facility or the ASF. Warranty repair or replacement shall not extend the original warranty period of the Product. A dated proof of purchase is required at the time of warranty service. A copy of your dated bill of sale will satisfy this requirement. This warranty does not cover any consumables, or any items available, such as toners, or ink cartridges, as to which there shall be no warranty or replacement.

This limited warranty shall only apply if the Product is used in conjunction with compatible computers, peripheral equipment and software. Canon USA shall have no responsibility for such items except for compatible Canon brand peripheral equipment and brand covered by a separate separate ("Separate Warranty"). Repairs of such Canon brand peripheral equipment shall be governed by the terms of the Separate Warranty. Non-Canon brand equipment and software that may be distributed with the Product are sold "as is" and without warranty of any kind by Canon USA, unless any Product warranty regarding merchantability or fitness for a particular purpose, and all such warranties are disclaimed. The sole warranty, if any, with respect to such non-Canon brand items is given by the manufacturer or vendor thereof.

This limited warranty does not apply to defects encountered, in normal use of the Product and does not apply in the following cases:

(a) Loss of or damage to the Product due to abuse, neglect, mishandling, warranty packaging by you, alteration, accident, electrical current fluctuations, warranty use, failure or items warranty, or maintenance instructions in, or environmental conditions prescribed in, Canon USA's user's manual or other documentation, or services performed by someone other than a Canon USA warranty facility or ASA Without limiting the foregoing, should the Product overheat, and sometimes, will be presumed to have resulted from misuse, abuse or failure to operate the Product, or set forth in the user's manual or other documentation for the Product.

(b) Use of parts, media, PERSON or supplies (other than those sold by Canon USA) warranty non-Canon ink cartridges or refilled ink cartridges, that cause damage or the Product or cause abnormally damage transmission or tainted warranty.

(c) If the Product has had its serial number or dating defaced, altered or removed

ANY IMPLIED WARRANTY, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, APPLIES TO THE PRODUCT AFTER THE APPLICABLE PERIOD OF THE EXPRESS LIMITED WARRANTY STATED ABOVE, AND NO OTHER EXPRESS WARRANTY OR GUARANTY (EXCEPT AS MENTIONED ABOVE) GIVEN BY ANY PERSON OR ENTITY WITH RESPECT TO THE PRODUCT SHALL BIND CANON USA. IN ITS ANY CASE, EITHER DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. CANON USA SHALL NOT BE LIABLE FOR LOSS OF REVENUES OR PROFITS, INCONVENIENCE, EXPENSE FOR SUBSTITUTE EQUIPMENT OR SERVICE STORAGE CHARGES, LOSS OR CORRUPTION OF DATA, OR ANY OTHER SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES CAUSED BY THE USE, MISUSE, OR INABILITY TO USE THE PRODUCT REGARDLESS OF THE LEGAL THEORY ON WHICH THE CLAIM IS BASED, AND EVEN IF CANON USA OR ITS ASA HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. ANY SHALL RECOVERY OF ANY KIND AGAINST CANON USA OR ITS ASA BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT CAUSING THE ALLEGED DAMAGE. WITHOUT LIMITING THE FOREGOING, YOU ASSUME ALL RISK AND LIABILITY FOR LOSS, DAMAGE OR INJURY TO YOU AND YOUR PROPERTY AND TO OTHERS AND THEIR PROPERTY ARISING OUT OF THE POSSESSION, USE, MISUSE, OR INABILITY TO USE THE PRODUCT SOLD BY CANON USA NOT CAUSED SOLELY AND DIRECTLY BY THE NEGLIGENCE OF CANON USA, OR ITS ASA (SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE EXCLUSION OR LIMITATION MAY NOT APPLY TO YOU). THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF THE PRODUCT OR THE PERSON FOR WHOM IT WAS PURCHASED AS A GIFT, AND STATED YOUR EXCLUSIVE remedies

# Caution: Internet Explorer Enhanced Security Configuration is not enabled

Internet Explorer Enhanced Security Configuration configures your server and Internet Explorer in a way that decreases the exposure of your server to potential attacks through Web content and application scripts. This is done by raising the default security levels on Internet Explorer security zones and changing the default settings.

Keeping the Internet Explorer Enhanced Security Configuration enabled on your servers is recommended to help ensure that your servers are not inadvertently exposed to malware or other browser-based attacks. For more information including the complete list of changes that are implemented by Internet Explorer Enhanced Security Configuration, see the Internet Explorer Enhanced Security Configuration overview.

**To turn on Internet Explorer Enhanced Security Configuration**

1. Close any Internet Explorer windows that you might have open.
2. Open Server Manager.
   - If your server is running Windows Server® 2008 R2, in the **Security Information** section of **Server Summary**, click **Configure IE ESC** to open the **Internet Explorer Enhanced Security Configuration** dialog.
   - If your server is running Windows Server® 2012, click **Configure this local server** to open the **Local Server** configuration page. Then, in the **Properties** area, next to **IE Enhanced Security Configuration**, click **Off** to open the **Internet Explorer Enhanced Security Configuration** dialog.
3. To use Internet Explorer Enhanced Configuration when members of the local Administrators group are logged on, under **Administrators** click **On**.
4. To use Internet Explorer Enhanced Configuration when all other users are logged on, under **Users** click **On (Recommended)**.
5. Click **OK** to apply your changes.

**Note:** Once the Internet Explorer Enhanced Configuration is turned on for both sets of users, Server Manager will display **On (Recommended)** next to Internet Explorer Enhanced Security Configuration.

# Your **personalized** tips below

Each recommends a set of tips selected specially for you. They're based on:

**Your home size**
The smaller the home, the less energy it tends to use

**Your home type**
Single family home, townhouse, or condo? It makes a difference

**Season:**
We look at weather patterns specific to our area.

**Savings**
We'll tell you how to take action where it counts the most

Your information is confidential and will not be shared with any other company. To update your information, visit www.energysaver.com/Action Plans/profile

## Quick Fix
Something you can do right now

☐ **Reduce your water heater's temperature**
Lowering your water heater's temperature from 140°F to 120°F can reduce water heating costs by up to 10%. This temperature will also help prevent scalding.

Check the owner's manual for safety instructions before making any changes to your water heater's settings.

After lowering the temperature on the water heater, use a thermometer to check the temperature of water flowing from your faucets.

**SAVE UP TO**
**$25 PER YEAR**

## Smart Purchase
An affordable way to save more

☐ **Improve shading for windows**
Window shades can help you stay cooler in the summer and warmer in the winter.

Shading the outside of your windows with awnings, shutters, solar shades, or solar screening will most effectively block summer heat while indoor window treatments insulate well in the winter.

Use what's right for each window. Pay special attention to windows that face south, east, and west and receive the most sunlight.

**SAVE UP TO**
**$30 PER YEAR**

## Great Investment
A big idea for long term savings

☐ **Replace your old refrigerator**
Your refrigerator runs 24 hours a day, seven days a week. As a result, it uses more electricity than any other appliance.

You could save up to 40% on your refrigerator's energy costs when you replace it with a model manufactured before the year 2000 with an efficient ENERGY STAR® unit.

We're offering **up to a $100 rebate** when you purchase a new ENERGY STAR qualified refrigerator. Recycle your old fridge and earn $50. Visit **EnergySavePA.com** for details.

**SAVE UP TO**
**$35 PER YEAR**

# Handy Dandy Guide to Economics

**People Make Choices**

- People face scarcity – we live in a world where we can't have everything we want
- Resources are scare, so we must make choices

**Choices Have Costs**

- When we make choices, we give up the opportunity to have something else

**People respond to incentives in predictable ways**

- Rational people seek positive rewards and avoid negative consequences

**People create economic systems that influence choices and incentives**

- A society's economic system organizes the production, distribution and consumption of goods/services
- How people work together in the system is governed by written and unwritten rules

**Voluntary Trade Creates Wealth**

- People voluntarily enter into transactions that they believe will make them better off
- Specialization means there will be more total output.

**The Consequences of Choices Lie in the Future**

- We cannot change the past, but can influence the future
- Every choice we make is based on our prediction of benefits and costs of what our alternatives will be.
- The more information we have about our alternatives, the better our predictions will be.

Re: Frank Cuoco and Dorothy Cuoco CD accounts – Need to move interest into Savings Accounts

ATT: Philip

To whom it may concern.

Please make the changes to me and my wife's CD's so that the interest they generate always goes into the appropriate savings accounts

| CD Accounts | Primary Savings accounts to move interest into continuously |
|---|---|
| 841484841486 | 841484839034 |
| 841484845678 | 841484839034 |
| 841e84845723 | 841484839034 |
| 841484848276 | 841484841681 |

Also, since there is currently interest accrued in each CD that was previously not moved to the savings accounts, please start by moving those amounts. After that, each time interest is earned, it should be automatically moved to the appropriate savings account listed above.

Please call me directly if you have any questions at 714-390-9932

Please confirm via call or email (azfrank@aol.com) that the change has been made and when to expect to see it take affect

## Troubleshooting Steps

The steps below will help you resolve common faxing problems.

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 30 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-in-One device, temporarily disconnect device from PC.

Environmental Advice for Imaging Equipment

Recycled paper
The machine is designed to use regular paper and also recycled paper which complies with EN 12281:2002 or similar
Additionally Laser/LED machines are able to print on 64g/m2 (Bond 17 lb) paper This paper contains less raw materials and represents a significant resource saving.

Duplex printing
Duplex printing enables both sides of a sheet of paper to be used. This saves paper and reduces the size of printed documents, so fewer paper sheets are used. We recommend that this feature is enabled whenever you print, if supported by your machine

ENERGY STAR(R)
To save energy, look for the ENERGY STAR mark on products. ENERGY STAR compliant products are designed to be among the best on the market in terms of energy consumption.

Power management
The machine automatically switches to "Ready" after the last print job. After a default time, the device will automatically switch to lower power modes using its Power Management function.
In these modes the machine s energy consumption is reduced.

Form **W-9**
(Rev. January 2020)
Department of the Treasury
Internal Revenue Service

# Request for Taxpayer Identification Number and Certification

Give form to the requester, do not send to the IRS.

Print or type
See Specific Instructions on page 3.

Name

Business name/disregarded entity name, if different from above

Check appropriate box: ☐ Individual/sole proprietor ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate ☐ Exempt payee code (if any)

☐ Exempt from FATCA reporting code (if any)

(Applies to accounts maintained outside the U.S.)

Address (number, street, and apt. or suite no.)

Requester's name and address (optional)

City, state, and ZIP code

List account number(s) here (optional)

## Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

**Note:** If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number

or

Employer identification number

## Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen (including a U.S. resident alien).

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. (See the instructions on page 4.)

Sign Here — Signature of U.S. person ▶ — Date ▶

## Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

**U.S. person.** Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the requester (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee.

*Note: If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.*

**Foreign person.** If you are a foreign person, use the appropriate Form W-8 (see Pub. 515, Withholding of TIN on Nonresident Aliens and Foreign Entities).

**Nonresident alien who becomes a resident alien.** Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the recipient has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income you must attach a statement that specifies the following five items:

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from the article in the treaty number

[redacted] everything in my life is a conspiracy
[redacted] why they can't leave me alone and let me be

Oh, won't you please believe that I'm not crying
My love for you is slowly dying

Stuck here in this room can't seem to break away
Can't keep myself from listening to what you have to say
Voices in my head are yelling louder every day
Sometimes hurting myself is the price I have to pay

## 1.4 Convenient function settings

By registering destinations that you fax often in the Address Book destinations or Group destinations, and registering Program destinations for fax transmission settings that are used often, the registered details can be recalled by simply touching the registered button.

Address Book destinations
By registering destinations that you fax often in the Address Book destinations, you can recall destinations by simply touching the registered button.

Refer to "Registering the Address Book" on page 9-4 for details regarding registering abbreviated destinations.

Group destinations
When sending the same fax to multiple destinations, by grouping together and registering destinations registered in the Address Book destinations, multiple destinations can be recalled by simply touching the group destinations button.

Refer to "Registering Group destinations" on page 9-15 for details on registering group destinations.

Program destinations
By registering destinations that you fax often and transmission settings you use often in your program destinations, the registered details can be recalled by simply touching the program button.

Refer to "Registering Program destinations" on page 9-21 for details on registering program destinations.

TEST

RingCentral
YOUR PHONE SYSTEM. EVERYWHERE.

## Once you've sent a fax.

Find the status of your outgoing fax in the messages tab of your online account.

When the fax has been delivered, the log will move to the **Sent Items** folder where you can access archived faxes for one year.

You'll receive a confirmation email showing the results of your fax.

The fax record appears in the **Outbox folder** while RingCentral processes your fax.

## Receive faxes three ways

### 1 In your email

RingCentral delivers incoming faxes as PDFs to your email address.

Click the attachment to view your fax.

### 2 From your online account

You can also get your faxes by logging in to your online account. RingCentral stores up to 200 fax messages for one year.

### 3 Using your Call Controller

View a fax by selecting any message next to a fax icon in the Call Controller window.

## Use your fax machine as a virtual scanner

Fax important documents directly to your RingCentral account to create a copy in PDF format. RingCentral will automatically store your documents online—or you can download and archive them on any computer—for safe and easy access.

# Apple Planning Completely Redesigned iPhone for Fall 2012 Launch?

Tuesday December 27, 2011 9:05 am PST by Eric Slivka

*AGR reports* that Apple is planning to launch a completely redesigned iPhone in the fall of next year, following the trend set by the iPhone 4S of new hardware being released later in the year as opposed to the mid-year timeframe used previously.

According the report, the next iPhone will use an aluminum back panel rather than the glass found on the iPhone 4 and 4S. The new design will reportedly also see the incorporation of a rubber or plastic bezel covering similar to that used on Apple's iPhone bumpers with the covering serving to protect the device's antennas from direct skin contact.

We have also learned that Apple is planning to use a rubber or plastic material — similar to the material used in the company's bumper cases — that will be built into the new iPhone case. In all likelihood, this material will be used as a bezel surrounding the front edge of the phone (like the iPhone 3GS bezel) and it will serve two purposes. First, it will join the glass iPhone face with a new aluminum back plate. It will also cover a redesigned antenna system that surrounds the day on following Apple to build the new case out of aluminum without having to use a large plastic insert above the antennas as the company does on its iPad 2 W Fi + 3G.

*AGR* has a mixed track record when it comes to hardware rumors, coming relatively close on Apple's late 2011 iPhone lineup while missing with a claim of a redesigned WiMAX iPhone 5 exclusive to Sprint.

## Chapter 1 Preparing the site for migration—START AT STEP 3

The following instructions will teach you how to prepare the customer site to install and activate

**Step 1** On the alarm center to have the alarm [illegible] and remote.

**Step 2** Install the ADA 202 unit by powering on the unit. Attach one end of the [illegible] cable to the ADA ethernet 0 slot 0 or 0 and the other end of the [illegible] to the home network switch. The CAT5 cable should be connected to a predetermined port [illegible] switch, which is documented by IT

**Step 3** Following the phone battery and wire down at a previous test or [illegible], locate and locate the POTS site three-sided mining channel in the [illegible] Internet. They are 2 wire, one may be blue being labeling wiring and/or adding destination by the [illegible] 2 Wired Internet Gateway [illegible] your own.

**Step 3.5** Once the primary alarm is [illegible] we have the cable and now ops the connection line 1 unconfigured alarm cable site adding a from the alarm's [illegible] three 3 phone ports on there are alarm a phone labeled site when [illegible] the alarm the next phone the cable (modem and white) are attached to in the branch and square showing the other end of the cable installed in the Internet 2B black (now approx.)

# Russia Massing Military Forces Near Border With Ukraine

By STEVEN LEE MYERS and ALISON SMALE MARCH 13, 2014

MOSCOW — With a referendum on secession looming in Crimea, Russia massed troops and armored vehicles in at least three regions along Ukraine's eastern border on Thursday, alarming the interim Ukraine government about a possible invasion and significantly escalating tensions in the crisis between the Kremlin and the West.

The announcement of the troop buildup by Russia's Defense Ministry was met with an unusually sharp rebuke from Chancellor Angela Merkel of Germany, who warned that the Russian government must abandon what she called the politics of the 19th and 20th centuries or face diplomatic and economic retaliation from a united Europe.

"Ladies and gentlemen, if Russia continues on its course of the past weeks, it will not only be a catastrophe for Ukraine," she said in a speech to the German Parliament. "We, also as neighbors of Russia, would not only see it as a threat. And it would not only change the European Union's relationship with Russia. No, this would also cause massive damage to Russia, economically and politically."

Ms. Merkel's words reflected the rapid evolution of the Ukraine crisis from a regional conflict to a full-blown East-West confrontation that threatens a deep rupture in relations between Moscow and an increasingly unified European Union and the United States. That a leader of Germany,

Ambassador, the TPA makes the trip from PIA to ROC. Quicker than you can say PRESTO.

And outside, GEO is the place for BMX.

Got all that?

Sports fans from near and far will need to learn a new lingo for the Pan Am Games starting July 10, with airport style code letters for each of the 31 venues as 250 000 visitors and 10,000 athletes and officials from North, Central and South America descend on Toronto and southern Ontario.

More than 5,000 signs will feature the codes, helping direct ticket holders to places of competition like CFB — short hand for Canadian Forces Base Borden — and BCV, which is Sugar Beach on the waterfront and named for the Royal Canadian Yacht Club. Not far from there, Mississauga Stadium, where the Union Pearson Express stops, is MSS.

The signage will be revealing today (Tuesday) plays a critical role for the games, said Pan Am CEO Saad Rafi, who was stumped when asked to decode some of the shorthand.

Some of the venue names, after all, are long — such as the CIBC Pan Am Pamplon Am Aquatics Centre and Field House. Or PAC for short. Others are easier like the Premier's Chorus Aura Hall, are CAHV.

Games officials insist ticket holders will catch on because the acronyms are on their tickets and the signs, along with each games of the sports they'll be watching.

"The premise upon which the test was based was to make sure that we have people getting to the venues on time," said Transportation Minister Steven Del Duca.

Also of note — the acronyms are the same in English, French and Spanish.

All of these were focus tested, not only the three-letter code but the three letter code in combination with the pictogram and also people were asked about how to distinguish the signs," Rafi said.

"Since those signs are just now going up, I think we should give everybody a chance to get used to where they want to go."

With 17 days until the games begin, and new restrictions on high-occupancy vehicle or HOV lanes starting Monday to whip drivers into Pan Am mode, signs are going up in 16 southern Ontario municipalities, not only for motorists but for public transit and pedestrians as well.

On HOV lanes, vehicles will have to contain three people between 5 a.m. and 11 p.m. to avoid $110 fines and 3 demerit points.

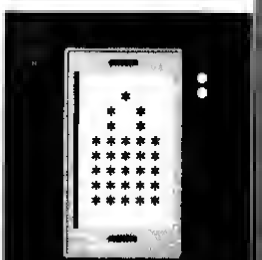
# 66 Ways to Take Control

Do one some or all Each one will make a big difference



### 1 | Check Your Data Breach Status

⏱ Takes 14 seconds

Wondering whether your personal data is for sale on the web? At haveibeenpwned.com you can check your email addresses and usernames against lists from 120 known breaches at companies including Adobe LinkedIn, and Snapchat. (You'll need to register to check the full database.) If your name pops up, change the password for the compromised account and any other site where—cut, cut—you were using the same password.

(Bonus tip: Pete passphrase "peanut" to "peanut, not "pennant.")

### 2 | Stop WiFi Imposters

Laptops, smartphones, and other WiFi–enabled devices can automatically connect to familiar networks. That's convenient—no end worries or enter a password for their home or work WiFi every day—but it can also be risky. A hacker can set up a rogue WiFi network with the same name as a legitimate one such as "Google Starbucks." It can then trick your gadgets into joining it.

Periodically get a fresh start by using your website network or WiFi settings to make the networks you join automatically. Most devices let you delete networks one by one, but if you have an iPhone or iPad, you need to go to Reset Network settings under General settings and delete all of them at once.

### 3 | Use 10-Minute Mail

You're often asked for an email address to access a website or sign up for a loyalty card, even if you want to use the service just once. Curiously, and you're in for years of marketing come-ons. "Everyone has their own email address these days," says Nathan White, senior legislative manager at Access Now, a digital-rights organization. Not you don't have to provide a real one. White recommends 10minutemail.com where you can get a functional email address for 10 minutes (or 20, if you need it), just long enough for you to log on to a site. When the time is up, the email address self-destructs—and 10minutemail.com doesn't retain any personal data.

### 4 | See Who Shared Your Private Data

Sometimes you need to register for a website with your real email address: say, if you plan to log in repeatedly to make purchases. Here's a neat hack for fending off which companies are sharing your data with email lists. If you have a Gmail account, type "+" before the @ symbol and add the website's name. Email addressed to YourName+Whitehouse.com@gmail.com will still go to the regular inbox for YourName@gmail.com. But now it will carry an extra crumb of data, and if you get spam from a company you've never heard of, you'll know whom to blame.

## Lock Your Screens

Set a password or PIN for every laptop, smartphone, and tablet you own. Any lost device without a screen lock is an unprotected gateway for thieves, who may be able to access your email, banking, and social accounts, changing passwords and taking control of your digital life. Here's how to do a screen lock right:

### 5 | Go Long

Use a screen-lock PIN made up of at least six digits, not four (See page 30 for an explanation of the math behind that.)

### 6 | Try to Be Unique ...

Don't use any of the following PINs because they're far too common, accounting for almost 28 percent of those currently in use: 9999, 1111, 1212, and 1234.

### 7 | ... but Not Too Personal

Your birth date? The last four digits of you Social Security address? Your phone number? These are all website hackers, no-good, very and PINs. Don't use them.

### 8 | Do Better Finger Art

Android users can unlock their phones by tracing a pattern on the screen. To be safe it needs to be unpredictable, but often it's not. For her master's thesis at the Norwegian University of Science and Technology, Maria Legaa analyzed thousands of patterns Seventy-seven percent began in a corner. One in 16 formed a letter—usually the Z shape—often the first initial of the user's name.

Jasmine is Awesome

Send a one page black and white text fax to 1-888-hpfaxme (1-888-473-2963). When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy - it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero.com this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring - hopefully, it will automatically answer and spit out the test fax.

alone fully with one touch operation, and re-synching does not work – especially if they start going up, stop, then start partially – lubricate the tracks with silicone spray!!

**Synchronizing sliding pop-up roof:**

If the power supply was interrupted (battery disconnected or lost), or if the sliding pop-up roof is blocked during closing, opening process, then you have to synchronize. To do so turn electronic system steering lock to position 2, move and hold switch in direction "↑" until the sliding pop-up roof is completely raised. Then hold for additional 1 second. If the pop-up roof simply will not open or close all the way after trying to proceed as described above, then check and lubricate the VIB lubrication nipple for the pop-up.

**Global Synchronization of auto open/unlock** (windows open when car is unlocked/locked)

Optional switch activation synchs all of your windows and sunroof so that they all open or close by a single command (pointing the key at the IR receiver on the driver's door handle and pushing & holding lock or unlock). Place the A/C vents on the A/C control panel in A/ to not the recirculation button on. Then press the button between the temp controls and hold as you all of the windows and roof close. This should synch them. After that, the Smart Key should open or close the windows and sunroof as well as only unlock or lock the doors.

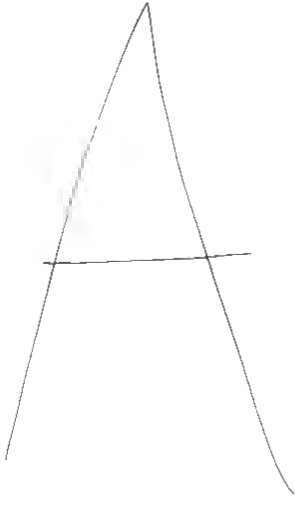
Also: Door locks are controlled from the key by radio frequency and will operate regardless of direction the key is pointed. The auto windows and features are infrared, however and operate only if the key is pointed at the small square IR receiver on the driver's door handle. The IR range is notably less than the RF range, and can be affected by bright sunlight directly on the door handle.

**Synchronizing ESP – DAS, ESP and (if you have it) ABC Lights On, or if you have a Pre-Safe warning**

If the power supply was interrupted (battery disconnected or empty), the HAN ESP might not only indicate a fault, but may also illuminate the engine control unit and you could have a Pre-Safe warning. Turn steering wheel completely to the left and then to the right. The HAN ESP malfunction indicator lamp should go out. For more information, see the entire PCII, see http://www.pelicanparts.com/911World/Articles/996_Articles/996_ESP.htm and also post #4 at http://www.rennlist.com/forums/showthread.php?t=220...1#post_4

**PCII reset procedure.** PCII adaptation reset will make your car function a bit sluggish and slow for a while.

1. Leave the car and close all doors. Turn the ignition key to the run (not start) position.
2. Press the gas pedal to the floor and hold for five seconds.
3. Turn the key to the "off" position (don't remove the key), then release the gas pedal.
4. Wait at least two minutes for PCII to reset.
5. Drive the car and you will most likely notice it's a bit more peppy.



should decide if you will take BRILINTA.

- are breastfeeding or plan to breastfeed. It is not known if BRILINTA passes into your breast milk. You and your doctor should decide if you will take BRILINTA or breastfeed. You should not do both without talking with your doctor

Tell all of your doctors and dentists that you are taking BRILINTA. They should talk to the doctor who prescribed BRILINTA for you before you have any surgery or invasive procedure

**Tell your doctor about all the medicines you take** including prescription and over-the-counter medicines, vitamins, and herbal supplements. **BRILINTA may affect the way other medicines work and other medicines may affect how BRILINTA works.**

Especially tell your doctor if you take:

- an HIV-AIDS medicine
- medicine for heart conditions or high blood pressure
- medicine for high blood cholesterol levels
- an anti-fungal medicine by mouth
- an anti-seizure medicine
- a brain trauma medicine
- rifampin (Rifater, Rifamate, Rimactane, Rifadin)

Ask your doctor or pharmacist if you are not sure if your medicine is listed above.

Know the medicines you take. Keep a list of them to show your doctor and pharmacist when you get a new medicine

**How should I take BRILINTA?**

- Take BRILINTA exactly as prescribed by your doctor
- Your doctor will tell you how many BRILINTA tablets to take and when to take them
- Take BRILINTA with a low dose (not more than 100 mg daily) of aspirin. You may take BRILINTA with or without food.
- Take your dose of BRILINTA around the same time every day
- If you forget to take your scheduled dose of BRILINTA, take your next dose at its scheduled time. Do not take 2 doses at the same time unless your doctor tells you to
- If you take too much BRILINTA or overdose, call your doctor or poison control center right away, or go to the nearest emergency room

**If you are unable to swallow the tablet(s) whole**, you may crush the BRILINTA tablet(s) and mix it with water. Drink all the water right away. Refill the glass with water and drink all the water

**What are the possible side effects of BRILINTA?**

**BRILINTA can cause serious side effects including**

- See **"What is the most important information I should know about BRILINTA?"**
- **Shortness of breath.** Call your doctor if you have new or unexpected shortness of breath when you are at rest, at night, or when you are doing any activity. Your doctor can decide what treatment is needed

These are not all of the possible side effects of BRILINTA. For more information, ask your doctor or pharmacist.

Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088

**How should I store BRILINTA?**

- Store BRILINTA at room temperature between 59°F to 77°F (20°C to 25°C).

**Keep BRILINTA and all medicines out of the reach of children.**

**General information about BRILINTA**

Medicines are sometimes prescribed for purposes other than those listed in a Medication Guide. Do not use BRILINTA for a condition for which it was not prescribed. Do not give BRILINTA to other people, even if they have the same symptoms you have. It may harm them. You can ask your pharmacist or doctor for information about BRILINTA that is written for health professionals.

quarter, and despite the balance sheet contraction, it even improved as a percentage of average assets (annualized) by 37 basis points to 2.39% from 2.60% over this period.

AVERAGE EARNING ASSETS DECLINED 18%, THOUGH THE IMPACT OF THIS WAS PARTLY OFFSET BY MARGIN IMPROVEMENT

Other relevant points for the quarter were that net interest income declined 13%, reflecting lower average earning assets (down 18%), though this decline was partially offset by margin improvement to 3.12% for the fourth quarter of 2010 from 2.99% in the year ago quarter. Excluding securities gains and losses, noninterest income increased 9% to $457,000 for 2010's fourth quarter from $445,000 in the year-ago quarter, with the majority of the growth due to 8% growth in customer service fees over this period.

FISCAL 2010 NET LOSS: [illegible]

EPS: [illegible] ($0.[illegible])

[illegible] PREFERRED INCOME [illegible] $2.7 MILLION

Results for the years 2010 and 2009 also included foreclosure-related expenses, elevated provisions and security gains. And as was the case with 2010's fourth quarter results, the normalized earnings comparisons were a good deal better than those for the reported results. The reported net loss available to shareholders before preferred dividends was $[illegible] million or $0.92 per diluted share for the year 2010, compared to $3.8 million or $0.[illegible] per diluted share in the year-ago period. However, pretax income before the provision, security gains and foreclosure expenses (but after preferred dividends) was $2.7 million in the year 2010, versus $0.2 million in the year 2009.

**Strategy of Reigning In Asset Growth has Boosted the Margin**

ALTHOUGH THE COMPANY'S [illegible] TOTAL ASSETS [illegible] OVER THE PAST [illegible] CAPITAL [illegible] THE [illegible]

A big part of the Company's recent strategy has been to contract the balance sheet in order to boost both margins and capital ratios and reduce its risk profile. The Bank has been quite successful in doing so, and as we mentioned earlier, has seen good excellent efficiency through cost containment [illegible] this has occurred. For example, net loans declined 6% from year-end 2009 to year-end 2010, while deposits [illegible] 10% and total assets were down 12%. This strategy contributed to the [illegible] net interest margin improvement to [illegible] for the year 2010 from 2.56% in 2009, and allowed for an increase in the equity-to-assets ratio to 7.8% at December 31, 2010 from [illegible] at December 31, 2009. We would also note that the Company's [illegible] regulatory ratios continued to exceed the applicable minimums at December 31, 2010, with a leverage ratio of 7.8% (versus 5% for the [illegible]), and a total capital to risk-weighted assets ratio of 1[illegible] (versus 10% for the regulatory minimum).

LEVERAGE RATIO 7.8%, [illegible] 5% AT THE [illegible]

**While NPAs Increased, Loans 30 to 89 Days Past Due Declined**

LOANS 30-89 DAYS PAST DUE [illegible] AT 9/30/2010 TO $5.0 MILLION AT 12/31/2010

Although nonperforming assets increased to $33.0 million, or 6.17% of total assets at year-end 2010, which was up from $20.2 million (3.[illegible] of total assets) at September 30, 2010 and $[illegible] million (2.[illegible] of assets) in the year-ago date, we were encouraged that 30 to 89 day past dues have declined from $8.4 million at September 30, 2010 to $5.0 million at year end 2010. Charge-offs were higher than normal for the fourth quarter, which led to a decline in the allowance. [illegible] the allowance, its [illegible] are still in line with most other NC publicly traded banks. As of December 31, 2010 the allowance for loan losses totaled $[illegible] million or 1.[illegible] of assets, versus $[illegible] million, or 2.0[illegible] of assets in the year-ago date.

Given that we expect the provision for loan losses to remain somewhat elevated in 2011, we are lowering the projection to a net loss available to shareholders of $[illegible] or $0.[illegible] per diluted share in 2011. Our previous estimate was for 2011 earnings to be about $0.[illegible] per share. Obviously, changes in economic conditions could greatly affect these figures. ## SECTION 7

All Bills for raising Revenue shall originate in the House of Representatives; but the Senate may propose or concur with Amendments as on other Bills.

Every Bill which shall have passed the House of Representatives and the Senate shall, before it become a Law, be presented to the President of the United States: If he approve he shall sign it, but if not he shall return it, with his Objections to that House in which it shall have originated, who shall enter the Objections at large on their Journal, and proceed to reconsider it. If after such Reconsideration two thirds of that House shall agree to pass the Bill, it shall be sent, together with the Objections, to the other House, by which it shall likewise be reconsidered, and if approved by two thirds of that House, it shall become a Law. But in all such Cases the Votes of both Houses shall be determined by Yeas and Nays, and the Names of the Persons voting for and against the Bill shall be entered on the Journal of each House respectively. If any Bill shall not be returned by the President within ten Days (Sundays excepted) after it shall have been presented to him, the Same shall be a Law, in like Manner as if he had signed it, unless the Congress by their Adjournment prevent its Return, in which Case it shall not be a Law.

Every Order, Resolution, or Vote to which the Concurrence of the Senate and House of Representatives may be necessary (except on a question of Adjournment) shall be presented to the President of the United States and before the Same shall take Effect: shall be approved by him, or being disapproved by him, shall be repassed by two thirds of the Senate and House of Representatives, according to the Rules and Limitations prescribed in the Case of a Bill

## SECTION 8

The Congress shall have Power To lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defence and general Welfare of the United States; but all Duties, Imposts and Excises shall be uniform throughout the United States;

To borrow Money on the credit of the United States

To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes;

To establish an uniform Rule of Naturalization, and uniform Laws on the subject of Bankruptcies throughout the United States;

To coin Money, regulate the Value thereof, and of foreign Coin, and fix the Standard of Weights and Measures;

To provide for the Punishment of counterfeiting the Securities and current Coin of the United States,

To establish Post Offices and post Roads;

To promote the Progress of Science and useful Arts, by securing for limited Times to Authors and Inventors the exclusive Right to their respective Writings and Discoveries;

To constitute Tribunals inferior to the supreme Court;

To define and punish Piracies and Felonies committed on the high Seas, and Offences against the Law of Nations;

To declare War, grant Letters of Marque and Reprisal, and make Rules concerning Captures on Land and Water;

To raise and support Armies, but no Appropriation of Money to that Use shall be for a longer Term than two Years;

To provide and maintain a Navy;

To make Rules for the Government and Regulation of the land and naval Forces;

To provide for calling forth the Militia to execute the Laws of the Union, suppress Insurrections and repel Invasions;

To provide for organizing, arming, and disciplining, the Militia, and for governing such Part of them as may be employed in the Service of the United States, reserving to the States respectively, the Appointment of the Officers, and the Authority of training the Militia according to the discipline prescribed by Congress;

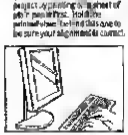
Avery **BIG TAB** Inserts for Dividers

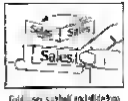
## Printing Tips

- Check the alignment of your project by printing a test sheet of plain paper first. Hold the printed sheet behind the original to be sure your alignment is correct.



- When you close the Print window (for Windows), be sure to specify that you changed the Paper Type to Heavyweight or Card Stock.
- If your printer supports duplex, a 5-1/2" paper setting will print half the sheet and print the other half blank.
- Use only Avery products for guaranteed results.

## Insertion Tips



Fold over top half and slide into **BIG TAB**. Side-by-side printing allows room to read over both tabs.

# Installation Instructions

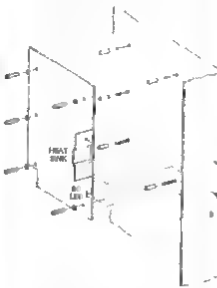
Step 1 Remove all packing and components from control box. See page 12 for hardware list.

Step 2. Remove knockouts for wiring where needed.

Step 3. Mount the control box to a dry location.

NOTE: Make sure the outlet for the transformer is not switched and will remain live twenty four (24) hours per day

Step 4. After mounting the control box securely to the wall, the main control board is ready to install



Step 5. Place the five (5) plastic spacers on the control board mounting studs in the back of the control box.

Step 6. Install the control board onto the mounting studs with the heat sink and AC LED on the right side. (see diagram/light)

Step 7 Place the lock washers on the five (5) board mounting studs.

Step 8. Screw the one (1) inch metal standoffs snugly onto the five (5) board mounting studs

Step 9 Install the five (2) sheet metal screws (provided) through the right side of the metal enclosure and into the prepunished holes on the heat sink. Hold the heatsink snugly while installing screws.

NOTE: The power supply may be damaged from excess heat if the heatsink is not screwed to the metal enclosure.

Step 10 Install a direct metal stake earth ground. Attach a ground wire from the earth ground stake to the spade lug marked "G" on the control board or to the control box itself making sure surfaces are free of dirt and paint.

* Do not plug in the 18 volt transformer or attach the battery at this time.

**Installation Hint**

For the lightning protect ve circuits to be effective the MPI 726 must be earth grounded as close to the control box as possible .It is recommended that this ground connection be made with a separate ground rod and minimum #14 gauge copper wire. Do not use electrical conduit, gas pipe, or telephone company grounds because these earth grounds have a large amount of electrical noise on them.

*Warning: DO NOT EARTH GROUND THE NEGATIVE SIDE OF THE POWER SUPPLY

Step 11 Terminals 26 to 30.
**Burglary Zones**

Connect the three burglar loops to terminals 26 thru 30 as shown on the diagram metal. All zones are class "B" end-of-line resistor supervised with 4700 ohm resistors. For proper supervision the EOL resistor should be placed at the most distant end from the control panel. This type of circuit allows the use of Normally Open and Normally Closed switches on the same loop. If the loop is opened or shorted a violated loop condition will result.

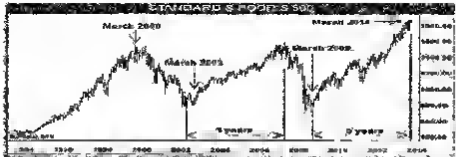
hello
world



**Put the current bull market into perspective.** Although today's bull market has been strong, it comes following the worst bear market a drop of 57% (compared to the bear market average of 37%). The current bull market also took much longer to return to its previous peak (more than four years compared to a two-year average for a four year lifespan) for all bull markets.

While no one can predict the future, prior bull markets that survived beyond their five year anniversaries went on to post much higher returns. *(Friday, May 2014 Bloomberg Finance L.P.)*

**Minimize risk in the bond market.** While there is no possible way to eliminate all the risks that rising rates pose for bonds, be a one some techniques that could help minimize your risk.

- Reduce the maturity of bond holdings
- Use some bonds with floating rates
- Use shorter-dated bonds
- Incorporate some callable bonds, which can be redeemed before their stated maturity

Bonds can still be a part of a diversified portfolio, but caution is probably a prudent strategy.

**Focus on your own personal objectives.** During confusing times it is always wise to revisit your personal time lines. Understanding your personal commitments and categorizing your investments into near term, short terms and longer term time horizons can provide you with the comfort knowing you are disciplined and can provide help

**Don't try to predict the market.** Ben G ahamis considered the father of value investing, an investment approach he began teaching at Columbia Business School in 1928. One of his most well-known disciples is legendary investor and billionaire, Warren Buffett. Graham has often said, "The individual investor should act consistently as an investor and not as a speculator." You are an investor, not someone who can predict the future. You should base your decisions on real facts and analysis rather than risky speculative forecasts.

**Discuss any concerns with us.** Our advice is not one-size-fits-all. We will always consider your feelings about risk and the markets and review your unique financial situation when making recommendations. For example, given today's stock and bond valuations, and the expectation of many economists that interest rates will rise, "there's nothing wrong with putting 10 percent off the table and sitting in cash," says James Stack, a market historian and editor of the Invest Tech Research Newsletter

**Our goal is to provide guidance based on your situation.** If you have any questions please call our offices. Thank you again for allowing us to help you with your finances

## Mario Batali's Chicken Cacciatore

| skill level | time | servings | cost |
|---|---|---|---|
| easy | over 120min | 4 | $ |

Contributed by: Mario Batali

Everyone needs at least one classic Italian dish in their repertoire, and this is it. It's a recipe sure to get your family around the table tonight

Calories per Serving: 1060
Cost per Serving: $6.76
Total Cost: $23.12

### Ingredients

2 cloves Garlic
2 branch Rosemary (mince leaves for 1/leave 1 whole)
8 Sage leaves (minced)
Salt and Freshly Ground Pepper
1/2 cup Extra Virgin Olive Oil
1 3-pound Chicken cut into 8 serving pieces (rinsed and patted dry)
2 large Yellow Onions (coarsely chopped)
1 Lb Cremini Mushrooms (stems removed) cut into 1-inch cubes
4 oz Pancetta (cut into 1/2-inch dice)
4 ribs Celery (cut into 1-inch pieces)
2 cups Basic Tomato Sauce
1 cup Dry White Wine
1 cup Chicken Stock
Pinch Sugar
Pinch Red Hot Pepper Flakes

Dopo una rapida introduzione, gli autori affrontano l'argomento "Memory Addressing" a cui fa seguito quello dei processi, partendo da un livello "basso" di controllo del Kernel. Quindi si passa alla gestione delle risorse di (dis)trasmissione dei processi, fino alla fase dello scheduling. Il tutto è perfettamente incastrato attraverso la trattazione degli interrupts e delle "System Calls" per dare un senso di continuità a tutto l'argomento. La seconda metà del libro è dedicata invece all'analisi dei dispositivi I/O partendo da un livello non fino alla descrizione delle swapping e della gestione del filesystem Ext2.
Il libro termina con la descrizione dei sistemi di comunicazione tra processi (Pipes, FIFO, System V IPC), e la loro sincronizzo.

### Giudizio

Il libro non è tutto, è modo decisi un vero e proprio "must" per chiunque voglia conoscere o approfondire argomenti inerenti il Kernel di Linux. Vista la complessità dell'argomento trattato, e la continua evoluzione del Kernel, alcuni argomenti potrebbero risultare superati o imprecisi, ma data anche l'ottima documentazione reperibile in rete, nonostante formano non buona spesa denaro, per affrontare gradualmente ogni tipo di discorso. Al momento, è disponibile dal sito O'Reilly la versione online (a seguito di una registrazione) della suddetta testo, mentre è in vendita la seconda edizione che tratta esclusivamente la versione 2.4 del Kernel.

### Considerazioni del recensore

In ogni sistema operativo complesso di applicazioni, il Kernel tutto di alcuni in parte più interessanti a complessi. Conoscerne anche con termini parte, permette di affrontare molti problemi con un punto di vista particolare. Questo libro non pretende certo di raccontarcene ogni minimo dettaglio della materia, ma è di sicuro un buon supporto per uno studio personale, graduale e che sia il meno possibile dispersivo. E' da sottolineare inoltre il fatto, che agli autori si sono accompagnati come revisionatori personaggi del calibro di Alan Cox e Rik van Riel.

Se proprio si deve muovere una critica, restando nel parere personale, ciò che non mi piace molto del libro è lo schema dei capitoli: una parte da una analisi generale dei problemi, passando subito dopo ad un elenco di descrizioni di singole funzioni, molto spesso monotone (anche se deve ammettere, ciò rende più facile la consultazione)
Sarebbe stato lodevole un maggiore sforzo nei riguardi esempi di codice, su come poter agire direttamente su alcune parti del Kernel, sia in fase di modifica che in fase di utilizzo.

Concludendo, "Understanding The Linux Kernel" rappresenta un testo che non deve mancare a nessuno che intenda fare hacking sul Kernel, che voglia approfondire la propria conoscenza o soddisfare semplici curiosità sul mondo GNU/Linux.

**Woods**

The Woods Motor Vehicle Co of Chicago IL produced electric cars from 1899 to 1919, making it one of the longest lived EV producers of the early 1900's. It made a variety of models, including the 1917 Woods Dual Power - a parallel hybrid that included a 12-hp, 4-cylinder gasoline engine as an auxiliary drive system in addition to the electric drive train. Top speed in electric-only mode was reported as 20 mph, while a speed of 35 mph could be reached with both drive systems engaged. There is a 1916 Woods Dual Power (hybrid) in the holdings of the Henry Ford Museum in Dearborn MI.

Notes from W Zabloskiy:
a)when this company started it had 10 million dollars of capital stock, some of the backers were from Toronto
b)the company bought the patents of Clinton E. Woods and hired him as a superintendent
c) the original Woods company soon went bankrupt in 1901
d) the Woods Company did not build very many vehicles prior to 1903
e) apparently a Woods Electric was on of the very first automobiles in Hawaii
f) the company also operated a taxi fleet prior to reownership
g) production soon sped up after the reorganization of the company in 1902.

I think you're confusing hair metal with glam rock. Glam rock died out in the mid 70's.

As far as it being dead for rock...

Dire Straits
EMF
Nine Zoo
Suicidal Tendencies
KMFDM
NIN (Both Pretty Little Hate Machine and Head Like a Hole were released during this period)
Cowboy Junkies
Primus
The Offspring
The Dead Milkmen
Pop Will Eat Itself
Matthew Sweet
Butthole Surfers
Ohaa
Jane's Addiction

Let's see...
Peter Murphy was still putting out albums
Bush put out several albums
The Grateful Dead were still releasing albums...

Hell... Ire+ formed Bodycount in 1990
Rage Against the Machine formed in 1991

Beastie Boys started to slip back into their punk roots to create a rock rap fusion with Check Your Head... and remained the sound in '93's Ill Communication

Are you talking about what was played on the radio where you lived, or what was actually released? Or what was worth listening? These things do not always align

To All Guardians and Residential Providers,

Winter time is already here and it is time to think about winter driving conditions affecting transporting consumers to and from Quest for Independence It is our goal to have all individuals here learning, but we also realize health and safety is our number one priority Therefore, please be advised when snow or other dangerous weather conditions are predicted, Quest for Independence will monitor the weather forecasts carefully and then make a decision to either delay transportation or cancel the day program for that particular day

In the event of a delay or closing, all Guardians and/ or Residential providers will be notified by phone no later than 7 30 a.m. in the morning. If an early dismissal occurs, you will also be notified immediately

Finally in the event an individual will not be attending Quest for Independence, please call our main number 513-682-1156 and leave a message informing us so we can let our staff know not to include the Individual on the transportation schedule. We also would like to be informed by 7 30 a.m.

Just a reminder that Quest does their best to pick up all individuals at a reasonable time We don t guarantee a pick up time We will try to pick everyone up between 8 15 & 9 a.m.

Thank you for your cooperation in this matter If you have any questions, please do not hesitate to call me at 513-682-1156

Sincerely,

Rosalind Smith

## Formats

Different versions of Mac OS X have different formats for screenshots.

- Mac OS X 10.2 (Jaguar) jpg
- Mac OS X 10.3 (Panther) pdf
- Mac OS X 10.4 (Tiger) and later png

In Mac OS X 10.4 and later, the default screenshot format can be changed, by opening Terminal (located at /Applications/Utilities/Terminal) and typing in

```
defaults write com.apple.screencapture type image_format
killall SystemUIServer
```

Where *image_format* is one of jpg, tiff, pdf, png, bmp or pict (among others). If you omit the second line, you will need to log out and in again for the change to take effect.

## Grab and Preview

Instead of using the keyboard shortcuts above, screenshots can be taken by using the Grab application included with Mac OS X. It is located at /Applications/Utilities/Grab.

In Mac OS X 10.4, the Preview application can also be used to take screenshots, by using the Grab submenu in the File menu.

## From the Terminal

The screencapture command in the Terminal can also be used to capture screenshots, and is useful for scripts. Here is an example

```
screencapture -iW ~/Desktop/screen.jpg
```

## Third Party Applications

There are a huge number of third party applications that can be used to take screenshots. Several popular ones are listed below:

- Jing (http://www.jingproject.com/) Great for screen shots, video recording and has an extremely useful online sharing feature.
- Snapz Pro X (http://www.ambrosiasw.com/utilities/snapzprox/) is very popular and can even record movies. It has a large range of features, as it is shareware.
- SnapNDrag (http://www.yellowmug.com/snapndrag/) is also popular and offers several features in addition to those

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

**To test the send functionality of your fax machine,** send a one-page fax to 1 888-877 1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

**To test the receive functionality of your fax machine,** point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

## Prayer to St. Joseph over 1900 years old

**O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms, I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath, St. Joseph, Patron of departing souls, pray for us. Amen**

***Say for nine consecutive mornings for anything you may desire. It has seldom been known***

***to fail.***

**This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.**

**Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.**

**Make this prayer known everywhere**

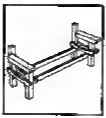
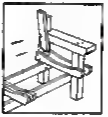
To shape the curve, make a template for a 36-inch radius cut. Mark the cut to start 3 inches in from the front, and use a jigsaw to cut the radius and finish the seat supports with a 45-degree bevel cut to match the armrests. Note that the end and center seat supports differ slightly in length and attachments.



Trim the four 2x4 seat supports to 36-1/2". Attach the inside seat supports to the rear and front legs so they rest on the top edge of the 2x4 main brace. Attach the bottom seat supports level with the bevel cuts.

Trim the two center seat supports to 22 inches. Using a scrap piece of 2x4 as a temporary spacer for the backrest, attach these seat supports across the main braces flush with the back edge of the rear brace. Use two 3-inch screws for seat joint, angled from below and inside. Remove the spacers.

For the backrest supports, trim the 2x4 supports to a 10-degree angle at the top edge. The two backrest supports start at the top of the 4x4 rear leg and trim to rest on top of the seat supports. The center backrest trims flush to the bottom edges of the two center seat supports.



Attach the end backrest supports to the inside of the 4x4 rear leg with two screws. The bottom should fit snugly to the top of the seat supports and can be secured with screws driven at an angle from inside. The top rail should be installed before trimming and installing the center backrest.

1L, 2L and 3L T Engines

8 See Figure 83

The rivers are adjusted in basically the same manner as the 2BR, 2BB and 2BR-E engines, in that the engine must be OFF during the adjustment and that the clearance is checked with a feeler gauge between the rocker arm and the valve stem end.

➡The engine must be at overall operating temperature to obtain the proper valve clearances.

Remove the valve cover and rotate the crankshaft to align the TDC mark on the crankshaft pulley with the corresponding pointer. The valves of the number one cylinder should be closed (rocker arms should feel loose). If the rocker arms of the number one cylinder are tight, rotate the engine another 360° and again align the TDC marks.

2. Adjust the clearances of the following valves:
   - No.1 cylinder intake and exhaust
   - No.2 cylinder intake
   - No.3 cylinder exhaust
3. Rotate the crankshaft 360° and adjust the remaining valves:
   - No.2 cylinder exhaust
   - No.3 cylinder intake
   - No.4 cylinder intake and exhaust

Remember that the cylinders (observing from the front of the engine to the rear) are numbered No.4 and No.1 at the valve gear end, from the front of the engine as E-I-E-I-E-I, with E designating (you guessed it) exhaust valves and I designating each intake valve. Choose your specifications, turn the Secret Tune-Up Chart accordingly.

8. Reinstall the valve cover.

➡Never operate the engine with the valve cover removed.

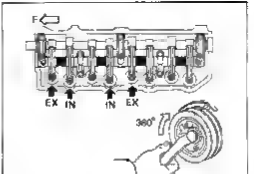

Fig. 83 Valve valve adjustment

## ADJUSTMENTS

### Carburetor

[illegible] of the carburetor and some of its adjustment procedures.

[illegible] your engine is running at fast idle with the choke valve fully open, the throttle valves are completely closed. In this position, the engine is operated entirely on the idle system. As the throttle valves are opened, through the various stages of acceleration, the air/fuel mixture is controlled by the idle system, the main metering system and the power system. When the engine is not running, the choke valve is closed, completely blocking off the intake air to the carburetor. When you step on the accelerator pedal, the throttle valves are opened, allowing the air/fuel mixture to enter the passenger compartment of the truck. With your foot on the gas pedal, the throttle valves are held open and the engine is operated entirely on the main metering system. When you release the gas pedal, the throttle valves close to the point where only a small amount of air/fuel mixture is let into the engine by the idle system. This is necessary to prevent the engine from stalling. When you apply the gas pedal to accelerate, the throttle valves open and the main metering system begins to operate. The main metering system is controlled by the power valve, which is operated by engine vacuum. When the engine is under a load, the power valve is opened, allowing more air/fuel mixture to enter the engine. This is necessary to prevent the engine from stalling. When you apply the gas pedal to accelerate, the throttle valves open and the main metering system begins to operate. The main metering system is controlled by the power valve, which is operated by engine vacuum. When the engine is under a load, the power valve is opened, allowing more air/fuel mixture to enter the engine. This is necessary to prevent the engine from stalling.

As previously stated, when the idle is not running, the throttle plates in the carburetor are closed. When the engine is idling, it is necessary to open the throttle plates slightly. To prevent having to keep your foot on the gas pedal, when the truck is idling, an idle speed adjusting screw was added to the throttle. The adjusting screw has the same effect as stepping your foot slightly down on the gas pedal. The idle speed adjusting screw contacts a lever (the throttle lever) on the outside of the carburetor. When the screw is turned in, it opens the throttle plate on the carburetor, raising the idle speed of the engine. This screw is called the curb idle adjusting screw and the procedure in this section tells you how to adjust it.

Since a cold start for the engine is done the air/fuel mixture from the carburetor with the small amount of throttle plate opening that is present when the engine is idling, an idle mixture passage is provided in the carburetor. This passage lets very air/fuel amounts to the engine from a hole which is located in the bottom of the carburetor below the throttle plates. This idle mixture passage, combined an adjusting screw which restricts the amount of air/fuel mixture that enters the engine at idle.

IDLE SPEED AND MIXTURE ADJUSTMENTS

8 See Figure 84 thru 86

1978–74

➡Perform the following adjustments with the air cleaner in place. When adjusting the idle speed and mixture, the gear selector should be placed in Drive (D) on 1978–73 models equipped with an automatic transmission. Be sure to set the parking brake and if not the front wheels. On all trucks equipped with manual transmissions and all 1974 automotive adjust the idle speed with the gearshift in Neutral (N).

1. Run the engine until it reaches normal operating temperature. Stop the engine.
2. Connect a tachometer to the engine as detailed in the manufacturer's instructions.

# Guidelines for Sales Reps and Customers

- **Use the promotional phrases!!!**
  - **"I am going to price out your 5 rooms at regular price and then deduct the cost of the carpet (or flooring) for 3 of them"**
  - **"As you can see there are two parts to your project, Carpet and Installation I am going to give you our regular price for your 2 primary rooms, then I'll deduct the cost of this part** *(pointing to the carpet or flooring on the laminated sales tool)* **for as many other rooms as you like, all you have to do is pay for the installation** *(pointing to the installation portion of the sales tool)"*
- Free rooms must be of equal or lesser value than the *Two Primary Rooms*
  - *Calculate the target price for each room individually – the two highest priced rooms are your primary rooms and must be purchased at the regular price*
- "Whole House Sale" must be clearly written on the purchase order when the order includes the selected promotional products
- Customers can purchase any number of rooms, there is **no limitation**
- Customers *can purchase any style, but only styles on promotion should receive the promotional pricing.* If the product selected does not qualify, Do Not offer the promotion
- Distribute the Whole House Sale Customer Handout on all sales appointments to further point out to the customer how the promo works.

## Intended Use

The sprayer is intended for use in spraying agricultural pesticides and other non-flammable liquids.

**SPRAYING PESTICIDES.**
Pesticides are hazardous chemicals that must be handled with caution as directed throughout this manual and on the pesticide label. Pesticides are regulated by the United States Environmental Protection Agency (EPA) and defined as:

> *Any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any pest. Though often misunderstood to refer only to insecticides, the term pesticide is a comprehensive term that applies to insecticides, herbicides, fungicides, and various other substances used to control pests.*

The sprayer is intended for use in spraying pesticides in liquid form only. The sprayer is NOT intended for use in spraying pesticides in dry or aerosolized form, or for use with fumigants.

Some formulations of liquid pesticides do not remain in solution and should be agitated to maintain a uniform mix. An optional ***agitator*** (Item #28520) accessory is available for use with this sprayer and should be used when spraying pesticides classified as "flowable" ("F" or "L"), "wettable powder" ("WP" or "W"), "emulsion" ("EC" or "E"), "microencapsulated" ("M"), or water dispersible granules ("WDG" or "DF"). (See pesticide label to determine its classification.)

Sprayers 268100, 268110, and 268120 come equipped with a spot spray gun for applying pesticides on selected plants. If you wish to spray large ground areas, a ***tank-mounted broadcast kit*** (Item #268852), ***ATV mounted broadcast kit*** (Item #268195), and an ***ATV mounted broadcast boom kit*** (Item #273011) are available as optional accessories.

Sprayers 268110 and 2681210 come equipped with a spot spray gun and a tank-mounted broadcast spraying system. Use the spot spray gun if you desire to apply pesticide only on selected plants. Use the broadcast spraying system if you wish to spray large ground areas.

**SPRAYING OTHER LIQUIDS.**
In addition to spraying pesticides, this sprayer may be used to spray other **non-flammable** liquids. Example uses include: watering plants/trees or spraying water for dust control, applying ice control chemicals, or applying water-based, non-flammable sealant or stain to outdoor wood surfaces.
However, **WE RECOMMEND THAT THE SPRAYER NOT BE USED FOR OTHER PURPOSES ONCE IT HAS ALREADY BEEN USED FOR SPRAYING PESTICIDES.** Any chemical will leave some residual in the tank liner or sprayer components, even after the sprayer has been properly cleaned. These residual chemicals can have unexpected affects on future uses. For example: spraying water or other liquids that are contaminated with residual pesticide may result in unforeseen hazards to plant or animal life.

**Contact NorthStar Product Support at 1-906-270-0818 for any questions about the appropriate use of the sprayer and/or optional accessories.**

**Wood Screws**
Screws with a smooth shank and tapered point for use in wood. Abbreviated WS

**Machine Screws**
Screws with threads for use with a nut or tapped hole. Abbreviated MS

**Thread Cutting Machine Screws**
Machine screws with a thread cutting (self tapping) point.

**Sheet Metal Screws**
Fully threaded screws with a point, for use in sheet metal. Abbreviated SMS

**Self Drilling SMS**
A flared head, screw with a self drilling point.

**Hex Bolts**
Bolts with a hexagonal head with threads for use with a nut or tapped hole. Abbreviated HHMB or HXBT.

**Carriage Bolts**
Bolts with a smooth rounded head that has a small square section underneath.

**Lag Bolts**
Bolts with a pointed, thread and pointed tip. Abbreviated Lag.

**Socket Screws**
Socket screws, also known as Allen Head, are fastened with a hex Allen wrench.

**Set Screws**
Machine screws with no head for screwing all the way into threaded holes.

**Eye Bolts**
A bolt with a circular ring on the head end Used for attaching a rope or chain.

**Eye Lags**
Similar to an eye bolt but with wood threads instead of machine thread.

**J-Bolts**
J shaped bolts are used for tie-downs or as an open eye bolt.

**U-Bolts**
bolts in U shape for attaching to pipe or tube. Head, mallcable. Also available with a square bend.

**Shoulder Bolts**
Shoulder bolts (also known as shoulder bolts) are used to create a pivot point.

# Pool Puzzle

You just got back from vacation and found your pool in disarray. Each snippet from the pool can be placed into the blank lines in the code. You may not need all the snippets, and you can use each one only once. Your goal is to make a program that will output exactly what is shown in the sample output. Don't worry about indentation—the exam will be multiple choice, so you won't have to write code—but you should be able to read it.

```
class Pool_Puzzle {
  public static void main(String[] args) {
    int x = 0;

    while ( x < 4 ) {
      System.out.print(x + " ");
      if ( x == 1 ) {
        System.out.print(x + 1);
      }
      x = x + 1;
    }
    if ( x == 4 ) {
      System.out.println("");
    }
    for (
      System.out.println("");
  }
}
```

**Output**

```
% java Pool_Puzzle
0 1 2 3
0 2 3 4
%
```

Note: Each snippet from the pool can be used only once!

```
x = x + 1;
x = 1
x >= 1
x > 4
x < 4
System.out.print("");
System.out.println("");
System.out.print("\n");
System.out.print(" ");
x = x + 2;
x = x - 1
x == 1
System.out.print(x);
System.out.println(x);
System.out.println(x + 1);
System.out.println("\n");

bathroom Now, normally I would have gone to the handicapped stall since I like to stretch out a bit when I take a good shit but in this case the door lock was broken and the only thing I hate worse than CatScratch telling ma to stop cutting my toenails with a pair of diagonal wire cutters is having someone walk in on me while I am taking a shit I went to the normal stall

In retrospect, I probably should have gone to the large, handicapped stall even though the door would not lock because that bit of time lost in making the stall switch proved to be a bit too long under the circumstances By the time I had walked into the regular stall the pressure on my ass was reaching Biblical proportions

I began "The Move ' For those women who may be reading this let me take a moment to explain 'The Move " Men know exactly what their bowels are up to at any given second And when the time comes to empty the cache a sequence of physiological events occur that cannot be stopped nnder any circumstances There is a move men make that involves simultaneously approaching the toilet, beginning the body turn to position ones ass toward said toilet, hooking ones fingers into ones waistline and pulling down the pants while beginning the squat at the same time It is a very finid motion that, when performed properly, results in the flawless expnision of shit at the exact same second that one's ass is properly placed on the toilet seat Done properly, it even assnres that Mr Lucky s properly inserted into the front rim of the toilet in the event that the piss stream lets loose at the same time, it is truly a picture of coordination rivaling that of a skilled ballet dancer

I was about half-way into "The Move" when I looked down at the floor and saw a pile of vomit that had been previously expelled by one of those little bastards attending kids night, it was mounded up in the corner so I did not notice it when I had first walked into the stall Normally, I would not have been bothered by snch a thing, bnt I had eaten so mnch and the pressnre npward was so intense that I hit a rarely experienced gag reflex And once that reflex started combined with the intense pressure upward caused by the bloated stomach four plates of macaroni and beef started coming up for a rematch What happened next was so quick that the exact sequence of events are a bit fuzzy but I will try to reconstruct them as best I can

the forces of cause and effect it is impossible to understand how the universe could have evolved to the point where it is today so complex, so purposeful in appearance, if not over millions of years However if we understand that all of the components of the universe are united in a single purpose that purpose being to reveal the presence of the creator, then quite the opposite would apply Our instincts would tell us that these components came together instantly by the Master Designer The first assumption is the one made by the blind materialist the second by the enlightened spiritualist.

**Final Synopsis**

The purpose of creation is to attain *giluy* i.e ultimate awareness of the creator by exercising our free will by penetrating the thick veil of hester in order to see the truth of creation i e the Creator The attainment of this gluy is considered qualitatively greater than one achieved without the overcoming of obstacles that are intrinsic to *hester* and is the purpose of our lives A person who manages to elevate himself to this higher more spiritual vantage point, no longer has any trouble with conceptualizing a six day creation.

OK  here it is. The full recipe including the hops additions for Pliny the Elder. This is reposted from the original recipe provided by Vinnie Cilurzo in the July/August 2009 edition of Zymurgy. (You really should subscribe to Zymurgy – it is a good mag!)

NOTE. As several posters have noted, the original recipe in the magazine was scaled incorrectly. AHA confirmed the error in a tech talk email after the magazine was printed. They scaled it for a 5 gallon, instead of a 6 gallon batch. I'm posting the original recipe here, with my proposed modifications to the grain bill noted below. Others have proposed slightly different modifications to the grain bill. You can read the rest of the thread for their suggestions if you would like.

Ingredients
****ORIGINAL GRAIN BILL (FOR 5 GALLON BATCH)****
11.0 lb Two-Row pale malt
0.5 lb Crystal 45 malt
0.5 lb Carapils malt
0.4 lb Dextrose (corn) sugar
****SEE BELOW FOR A PROPOSED MODIFIED GRAIN BILL****
3.50 oz Columbus* 13.9% AA 90 min
0.75 oz Columbus*13.9% AA 45 min
1.00 oz Simcoe 12.3% AA 30 min
1.00 oz Centennial 8.0% AA 0 min
2.50 oz Simcoe 12.3% AA 0 min
1.00 oz Columbus* 13.9% AA Dry hop 12-14 days
1.00 oz Centennial 9.1% AA Dry hop 12-14 days
1.00 oz Simcoe 12.3% AA Dry hop 12-14 days
0.25 oz Columbus* 13.9% AA Dry hop last 5 days
0.25 oz Centennial 9.1% AA Dry hop last 5 days
0.25 oz Simcoe 12.3% AA Dry hop last 5 days
*Can substitute Tomahawk/Zeus for Columbus

OG 1.070
FG 1.011
IBU's a lot! (90-95 according to recipe)
ABV 8-8.5%
SRM 7

Directions. Mash at 151-152 for an hour. Mash out at 170F and sparge. Collect 8 gallons run off, stir in dextrose and bring to boil. Add hops as indicated. After boil, chill to 67F and transfer to fermenter. Pitch 2 packets yeast or yeast starter and aerate well. Ferment at 67F until fermentation subsides, then rack to secondary. Add first set of dry hops and age 7-9 days, then add second set of dry hops. Age 5 more days then bottle or keg.

## How Can I Test My Fax Machine?

*I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?*

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

**To test the send functionality of your fax machine**, send a one-page fax to 1 888-877-1655 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute your fax should appear on the site. Click the thumbnail to see a large version.

**To test the receive functionality of your fax machine,** point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

5 1 Give five ways of increasing the rate of the following reaction.

$H_2(g) + Br_2(g) \rightarrow 2HBr(g)$

Increasing the reactants' concentration

Supplying the needed activation energy

Using a catalyst

Stirring the gases

Increasing the reaction vessel's pres

2 2. Explain in terms of collision theory why kindling is used to start a fire

Kindling has a larger surface area than a log, which increases the number of collisions between it and oxygen, so it will catch fire easier.

3 Examine the following reaction equations.

(i) $CO_2(g) + H_2(g) \rightarrow CO(g) + H_2O(g)$

(ii) $Fe^{3+}(aq) + Cr^{2+}(aq) \rightarrow Fe^{2+}(aq) + Cr^{3+}(aq)$

(iii) $FeO(s) + H_2O(l) \rightarrow Fe(OH)_2(s)$

2 (a) Which reaction is likely the fastest? Explain

(i) is probably fastest, since gases have more kinetic energy than liquids or solids at the same temperature and pressure, which results in a faster collision rate.

Hail Mary

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima

When you receive this email say a Hail Mary and ask for a special favor

" Hail Mary, full of grace The Lord is with thee Blessed art thou among women and blessed is the fruit of thy womb, Jesus Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen." (your request)

Please do not break the Novena and if to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

# Scholarship Programs

**Auburn University, Department of Fiber Engineering** Satellite flywheels, rocket motor nozzles, airbids and bullet-proofing are only some of the high-tech projects related to fiber engineering. Auburn University annually sets aside one scholarship for a CAP cadet to study fiber engineering, textile chemistry or textile management at Auburn.

**CAP Corporate Scholarships** CAP provides college scholarships for undergraduates and graduates. Scholarship amounts vary. Some of the top-ranking cadets receive special scholarships sponsored by the Air Force Association, USAA.

**Dowling College School of Aviation** CAP members have several aeronautical majors to choose from at Dowling College. Dowling offers a one-year and a two-year scholarship to CAP members annually.

**The Order of Daedalians** Aspiring military aviators have an opportunity to earn their pilot's license with this scholarship sponsored by the Daedalians. Graduates of CAP flight academies are encouraged to apply.

**The Spaatz Association** The Spaatz Association provides an annual scholarship to help a cadet who has flown solo to earn a pilot's license and/or attend a leadership-related CAP activity.

**Texas A&M University Corps of Cadets** With the largest uniformed student body in the nation, Texas A&M is a school where CAP cadets can continue their study of leadership while attending a major university. Scholarship recipients automatically qualify for in-state tuition.

**USAF Academy Preparatory School** Each year the USAF Academy affords at least one slot at the Academy Preparatory School for a CAP cadet. Cadets admitted to the Preparatory School are likely to enter the Academy the following year. Cadets who dream of entering the Academy should apply for this program.

## How Can I Test My Fax Machine?

*I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?*

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

**To test the send functionality of your fax machine,** send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

**To test the receive functionality of your fax machine,** point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

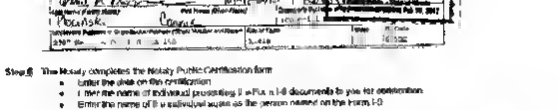
Example of completed Section 2 using a List B and List C document:

Step 5 The Notary completes the Certification section on the Form I-9, located immediately below Section 2 *(note that in signing the form I-9 and attesting the same, you are only attesting to the genuineness "on face value" of the documents as they relate to the person presenting them)*

- Insert the current date (month/day/year format) for "or (other)" first date of employment (EXECUTED in the example below, but should document 9's current date of certification)
- Sign your name as our staff trained representative *(Refer to Authorized Signers matrix)*
- Insert the current date under the Date field (month/day/year format) – *Date must match date in Section 1 since this should have been completed in the presence of a notary. If date is missing in Section 1 and the certification section, the form is considered incomplete.*
- Enter Notary Public as your title
- Print your last and first names
- Affix your Notary seal, re-sign on the form by the title field on the form (there are no specific areas on this form designated for this one – see below as an example)
- Do not complete Section 3



Step 6 The Notary completes the Notary Public Certification form

- Enter the date on the certification
- Enter the name of individual presenting I-9 Plus I-9 documents to you for examination
- Enter the name of the individual again as the person named on the Form I-9
- Sign and date the certification

# Test your fax machine or fax software with a free test fax number

July 28, 2010 | Is this guide helpful? | Share

Fax Software

Software

Do you want to test your fax software or fax machine, but you don't have a fax number that you can test with. Here is a list of free fax numbers that is for setup specifically for testing your fax machine within the USA or Canada.

These fax numbers will work on any fax machine or any type of fax software including FaxTalk.

## Testing fax sending only

A web site at faxby.net is available that will allow you to send a fax test to a fax toll free #1-888-877-1885 or + (888) 288-1368 (Portland Oregon USA)

NOTE: Faxes sent to this address are not fully displayed for all to see on the Web site faxby.net so do not fax any sensitive or confidential material.

Verifying your fax was received successfully

Visit the Web site faxby.net and view the thumbnail fax. Click the thumbnail to view a full page of the fax. If you do not see your fax, use the browser refresh option to update the page. Your fax thumbnail should appear within a few minutes after a successful send.

## Testing send and receive functions of your fax

Hewlett Packard HP provides a free fax testing service that can test both sending and receiving features of your fax machine or fax machine.

Send a fax to +1 866-473-2863 (Toll Free in the USA and Canada)

Receiving a fax To ensure you can receive a fax, once you successfully send a fax to this service it will automatically dial you back within a few minutes using your caller ID information and/or CSID and attempt to send you a fax.

If you using any call blocking or the Caller ID information is not sent, you will not receive a return fax. You should also ensure your CSID (Called Station Identifier) is properly configured to include your fax number or the return call and you have auto-receive option turned on your fax software or fax machine.

CHAPTER 6

# MEMORY CORRUPTION PART II—HEAPS

In Chapter 5 "Memory Corruption Part I—Stacks" we discussed how stack based buffer overflows can cause serious security problems for software and how stack based buffer overflows have been the primary attack angle for malicious software authors. In recent years however, another form of buffer overflow attack has gained in popularity. Rather than relying on the stack to exploit buffer overflows, the Windows heap manager is now being targeted. Even though heap-based security attacks are much harder to exploit than their stack based counterparts, their popularity keeps growing at a rapid pace. In addition to potential security vulnerabilities this chapter discusses a myriad of stability issues that can surface in an application when the heap is used in a nonconventional fashion.

Although the stack and the heap are managed very differently by Windows, the process by which we analyze stack and heap-related problems is the same. As such throughout this chapter we employ the same troubleshooting process that we defined in Chapter 5 (refer to Figure 5.1).

## What Is a Heap?

A heap is a form of memory manager that an application can use when it needs to allocate and free memory dynamically. Common situations that call for the use of a heap are when the size of the memory needed is not known ahead of time and the size of the memory is too large to neatly fit on the stack (automatic memory). Even though the heap is the most common facility to accommodate dynamic memory allocations there are a number of other ways for applications to request memory from Windows. Memory can be requested from the C runtime, the virtual memory manager, and even from other forms of private memory managers. Although the different memory managers can be treated as individual entities internally they are tightly connected. Figure 6.1 shows a simplified view of Windows-supported memory managers and their dependencies.

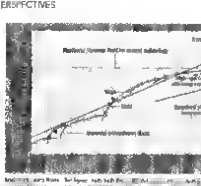

Fig. 1. Vehicle Assembly Drawing. Exploded view of the Model 3 chassis, showing the rotating sensor section and the fixed engine drive shaft.

Table 1. Comparative Performance Data for Model 3 and Competitor Vehicles

| Vehicle | 0–60 mph (s) | Top Speed (mph) | Range (mi) | Curb Weight (lb) |
|---|---|---|---|---|
| Model 3 | 4.2 | 155 | 310 | 3,580 |
| Competitor A | 5.1 | 140 | 280 | 3,720 |
| Competitor B | 4.8 | 150 | 295 | 3,650 |
| Competitor C | 6.0 | 130 | 260 | 3,810 |

Values are averaged over three runs on a level, dry surface at sea level. Range figures are EPA-rated.

Fig. 2. Cross-Section of the Rotating Sensor Section. The outer housing (A) rotates relative to the fixed engine drive shaft (B) on a pair of angular-contact bearings (C). Slip rings (D) transmit sensor signals across the rotating interface.

Table 2. Sensor Calibration Coefficients

| Sensor | Offset | Gain | Linearity (%) |
|---|---|---|---|
| Wheel speed | 0.00 | 1.000 | 0.2 |
| Steering angle | 0.12 | 0.998 | 0.4 |
| Yaw rate | −0.03 | 1.004 | 0.3 |
| Lateral accel. | 0.01 | 0.997 | 0.5 |

Coefficients are dimensionless; offset is in sensor units, gain is the slope of the calibration line, and linearity is the maximum deviation from the fitted line.

## How Can I Test My Fax Machine?

*I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?*

Try Fax.com Free

faxes online

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

**To test the send functionality of your fax machine,** send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

**To test the receive functionality of your fax machine,** point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

PEEL AWAY® 1

# DESCRIPTION AND INSTRUCTIONS

Thank you for your purchase of PEEL AWAY. Please take a moment to review this booklet and familiarize yourself with PEEL AWAY. PEEL AWAY is a unique package of specially developed chemicals and a fibrous laminated cloth which, when used in accordance with these instructions, is capable of removing up to thirty (30) layers of paint efficiently and safely. PEEL AWAY 1 contains NO FUMES AND NO FLAMMABLE SOLVENTS.

**DO NOT USE ON** veneers, plywood, aluminum, composition molding or drywall. **CAUTION**: Do not use on hardwoods unless you are going to refinish, as PEEL AWAY will darken wood. Use **PEEL AWAY #6** or **PEEL AWAY #7** for these surfaces.

EPSON
EXCEED YOUR VISION

# Congratulations, you have successfully installed your new Epson printer!

Here are some tips for getting great prints

- Genuine Epson inks have been engineered to deliver stable, long-lasting photographic quality when used with Epson papers
- To protect your photos, frame them under glass or store them in archival sleeves or albums. Your prints will last for generations!
- Epson offers an extensive line of specialty papers that provide outstanding results when used with Epson printers and genuine Epson ink.
- For best results, make sure the paper type selected in your printer software is right for the type of paper loaded in the printer. See your documentation for more information.

Denoting by $x_{t,i}^{S}$ a period-$t$ short-term trader's stock investment, a short-term trader maximizes period-$t$ expected

$$\max_{x_{t,i}^{S}} \; E_{t,i}\left[-\exp\{-a W_{t+1}^{S}\}\right] \tag{6}$$

s.t.

$$W_{t+1}^{S} = W_{t}^{S}\left[r_f + x_{t,i}^{S}\left(\frac{P_{t+1}+D_{t+1}}{P_t} - r_f\right)\right] \tag{7}$$

Equilibrium prevails when both investors' and market makers' actions maximize their objective functions (6) and (7), taking as given the strategies of the other market participants and markets clear.

### 2.2 Equilibrium

The first-order condition to (5) implies that the period-$t$ heterogeneous investors' optimal investment into stocks is

$$x_{t,i}^{S} = w^{S} = \frac{\gamma - \bar{R}^{e}\bar{P}}{\alpha\sigma_{\varepsilon}^{2}} = \frac{\gamma}{\alpha\sigma_{\varepsilon}^{2}} - \frac{r_f}{\alpha\sigma_{\varepsilon}^{2}}\left(\frac{R^{e}}{\bar{R}^{e}} - 1\right)\bar{P} \tag{8}$$

Let us now look at the market maker's behavior. Assuming that the next trading period's price is normally distributed, given $\Omega_t$, with mean $E(P_{t+1})$ and a common variance $\sigma_{\varepsilon}^{2}$, as is confirmed in the Appendix, when taking expectations, the first-order condition (7) gives that a period-$t$ market maker's demand for the risky security $x_t^{S}$ equals

## How Can I Test My Fax Machine?

*I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?*

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

**To test the send functionality of your fax machine,** send a one-page fax to 1-855-330-1239 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

**To test the receive functionality of your fax machine,** point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Bacon & Onion Foil Packet Potatoes

2 or 3 sheets of heavy-duty foil
1 packet onion soup powder
10-12 baby red potatoes, thinly sliced
12 slices of cooked and crumbled bacon
1 small onion thinly sliced and diced
1 cup cheese (optional)
Salt and pepper to taste
4 tablespoons butter
Sour cream for serving (optional)

Spray each sheet of foil with cooking spray. Top each piece with equal portions of potatoes, bacon, 1 packet onion soup powder and more. Add salt and pepper to taste. Add 1 tablespoon of butter to each serving. Wrap securely.

Grill for 20 to 30 minutes. Or you can bake it in the oven at 350° for about 35 minutes or till done. Let cool 10 minutes before serving. Serve in foil, topped with sour cream if desired

Determining Full-Time Employees for Purposes of Shared Responsibility for Employers Regarding Health Coverage (§ 4980H)

Notice 2012-58

## I. PURPOSE AND OVERVIEW

This notice describes safe harbor methods that employers may use (but are not required to use) to determine which employees are treated as full-time employees for purposes of the shared employer responsibility provisions of § 4980H of the Internal Revenue Code (Code). Specifically, the administrative guidance in this notice modifying and expanding on previous guidance includes a safe harbor method that employers may apply to specified newly hired employees.

As described more fully below, this notice –

- Expands the safe harbor method described in a previous notice to provide employers the option to use a look back measurement period of up to 12 months to determine whether new variable hour employees or seasonal employees are full-time employees without being subject to a payment under § 4980H for this period with respect to those employers. An employee is a variable hour employee if, based on the facts and circumstances at the date the employee begins providing services to the employer (the start date), it cannot be determined that the employee is reasonably expected to work on average at least 30 hours per week. (The 30 hours per week average reflects the statutory definition of full time employee in § 4980H(c)(4) and is the definition of "full-time employee" as used in this notice.) Seasonal employee is defined in section III.D.5. below.

- Provides employers the option to use specified administrative periods (in conjunction with specified measurement periods) for ongoing employees (as defined in section III.A. below) and certain newly hired employees.

- Facilitates a transition for new employees from the determination method the employer chooses to use for them to the determination method the employer chooses to use for ongoing employees; and

- Provides employers reliance, at least through the end of 2014, on the guidance contained in this notice and on the following approaches described in prior notices:

  (1) for ongoing employees, an employer will be permitted to use measurement and stability periods of up to 12 months.

  (2) for new employees who are reasonably expected to work full-time, an employer that maintains a group health plan that meets certain requirements

## President's message: Elaine Carmichael

Greetings!

As you page through this newsletter you may be surprised to find a few unfamiliar bylines along with such staples as Pat Miller's round-up of county board activities and matters of note. As an all-volunteer organization, DPO depends on its members' talents – and we've all become really reliant on K-p Fagel to produce our newsletter each quarter. Kip not only provides much of the content, he also lays out the newsletter and handles document production (with help from Nancy Raye, our administrative assistant). Kip is done yeoman's work for many years and deserves praise and thanks for his efforts. With this issue we're trying to lighten Kip's load and gear up for the imminent unveiling of DPO's new website, which will feature a steady stream of contributions from throughout DPO's membership.

We're excited about the website, which offers another way to keep members apprised of noteworthy issues and events around Door County. It should make it easier for you to alert the DPO Board to matters you feel should be addressed. However we'll continue to mail paper copies of our newsletter, the special "red letter" alerts and other important communications, as Bob Graef reminds us, for many members, there's no electronic equivalent of reading paper you hold in your hands. If you prefer screen-based communications or seek to minimize paper consumption, we will eventually enable you to opt out of printed copies.

Would you be willing to research and write articles on DPO's behalf? We're open to contributions on any topic that pertains to our mission and would interest our membership. Here's an opportunity to release your inner John McPhee or Annie Dillard. Let us know! Next on the list to be press-ganged into service: newest board member Patrick Fitzgerald, who will complete Joanne Kuhns' term while she attends to pending matters. We're grateful to Jo for her service and wish her well.

DPO's strength stems from its members, and this month we lost two of our most beloved: Charlie Jarman and Homer Bliss. Charlie passed away January 11th quite possibly while en route to a DPO Board meeting. A true community patriot, his devotion to Door County as an elected official, land steward and volunteer knew no bounds; he attended to both the needs of its people and its ecosystem. Charlie never failed to keep his fellow Board members attuned to the concerns of property owners, especially farmers, and to the realities of the political process. We will miss Charlie's boisterous laugh, his trenchant observations and his kind heart.

The aptly named Homer Bliss, who died January 25th, was unwavering in his support of DPO, serving as a board member and appearing regularly at annual meetings and other functions. DPO's first "Thoughtful Award" was named after Homer in part to honor his conviction that people working together could make meaningful change. Homer was a lively person who relished pleasure at lively conversation; he sparkled.

I miss Charlie and Homer and am grateful to have known these fine men.

Spring is closer than we think. Onward!

# CancerTYPE ID — Molecular Classification with CancerTYPE ID

**FFPE Tissue Processing & Tumor Enrichment**

- CancerTYPE ID requires as few as 300-500 viable tumor cells and is compatible with limited biopsy specimens such as FNAs, cytological specimens, and small core needle biopsies.
- CancerTYPE ID routinely employs laser guided microdissection to enrich for tumor specimen.

**Gene Expression Profiling**

- CancerTYPE ID uses a robust real-time RT-PCR platform to detect very small differences in gene expression.
- CancerTYPE ID measures and integrates the gene expression of 92 genes, 5 normalization genes and 87 lineage determinant and tissue-specific genes, most of which are not routinely measured by IHC.

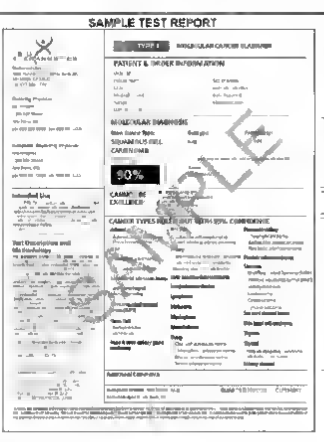
**Reference Tumor Database & Algorithm**

- CancerTYPE ID uses a computational algorithm to predict the patient's tumor type based on the degree of similarity of the sample's 92-gene expression profile to a reference database of gene expression profiles. The reference database contains gene expression information from over 2,000 tumor specimens of known histogenesis, and representing ~95% of all solid tumors based on incidence.
- The CancerTYPE ID algorithm provides a predicted main type and any sub-types in rank-order by relative probabilities, which are based on the tumor's gene expression similarity to tumors of these types in the reference database.

**Molecular Classification**

- CancerTYPE ID classifies 28 tumor types and 50 tumor subtypes.
- In an independent validation of 2998 blinded samples, the molecular diagnosis was 87% accurate for main tumor type and 86% accurate for tumor subtype.

## SAMPLE TEST REPORT



## Interpreting CancerTYPE ID Test Results

**MOLECULAR DIAGNOSIS**

The [redacted] molecular diagnosis is the CancerTYPE ID prediction of certain tumor subtypes. It is reported probability (≥ 80%), the tumor is reported as "Indeterminate", in this case, the test report will also indicate tumor types that can be ruled out (see below) that cannot be excluded.

**CAN NOT BE EXCLUDED**

When applicable, tumor types on the CancerTYPE ID reference database that share some gene expression profile similarity to the patient's sample such that they cannot be excluded. Item diagnostic consideration will be listed here in rank order.

**RULE OUTS**

The CancerTYPE ID test report also lists tumor types that can all be ruled out with 95% confidence. In an independent validation of 2998 blinded samples, the rule-outs were 95% accurate. This may provide useful differential diagnostic information when two or more potential tumor types are suspected and one or more tumors may be ruled out in the rule outs.

**Q. What should I know about an FHA refinance?**

**A.** FHA refinance loans are available for rate and term refinancing or cash out refinancing. In addition you may refinance a conventional loan to a FHA loan. For qualifying homeowners FHA loans generally have several advantages including

- Equity requirement is 2.25% (rate and term refinances only)
- May qualify for a loan two years after the date of discharge of a bankruptcy (Chapter 7)*
- May qualify for a loan three years after the date of a foreclosure*

*Without time frames may be longer upon personal circumstances and reestablishment of credit

**Q. What eligibility requirements are there?**

**A.** To be eligible for an FHA refinance with Discover Home Loans

- Loan must be secured by a one- or two-unit property occupied as your primary residence
- Your monthly housing costs (mortgage principal and interest, property taxes and insurance) should generally not exceed 31% of your gross monthly income
- Your monthly housing costs plus all additional monthly debt should generally not exceed 43% of your gross monthly income
- Your loan amount must not exceed your county limits as deterrn ned by the FHA. Contact one of our Dedicated Mortgage Bankers to determine what county loan limits are applicable to your specific situation

  You do not need to be a U.S. citizen though additional requirements apply to non-citizens
- If rapid celled, you have been discharged from a Chapter 7 bankruptcy for two years or more and you are in a Chapter 13 bankruptcy you have made all court-approved payments on time and re garned for at least one year Additional requirements apply Contact one of our Dedicated Mortgage Bankers about you specific situation

**Q. When is refinancing a good idea?**

**A.** If you can reduce your current interest rate you'll cut your monthly payments and may reduce the amount of interest you pay over the life of your loan depending on the term of your new loan. Moving from a 30-year term to a shorter term mortgage can help you pay off your loan sooner while switching from an adjustable-rate to a fixed rate mortgage will stabilize your payments. Or if you need money to pay down high interest bills or make major purchases a cash-out refinance can help you do that

Please call one of our Dedicated Mortgage Bankers at 1-800-270-3891 with questions or for more information.

**Product/Rate assumptions:** FHA 4 Year Fixed. Rate available as of 06/06/12. The payment start at a FHA 5-year fixed rate fully amortizing loan. The interest rate is 2.75% The discount APR is based on 0.750% discount points. 20% origination fee and $4,750 in additional prepaid finance charges due at closing (which increase 1.75% ($3,500) in up The discount APR is based on 0.750% discount points. 20% origination fee and $4,750 in additional prepaid finance charges due at closing (which increase 1.75% ($3,500) in up FHA mortgage insurance premium). For a $200,000 loan there is a 0.90% Annual Percentage Rate (APR) with the total monthly principal and interest payments of $1,017.94. The monthly mortgage insurance premium shown above does not include the FHA annual monthly mortgage insurance payment. Interest rate quoted assumes a FICO credit score of 720 with a maximum loan-to-value. also of 85% on a primary owner-occupied in the state of PA. The actual interest rate, APR and payment may vary based on the specific terms of the loan selected, verification of information, your credit history, the location and type of property and other factors. Has available in all states. Rates are subject to change daily without notice. Payments or interest rates may include amounts for taxes and insurance premiums. Your actual payment obligation will be greater

Terms subject to change. All loans are subject to credit and property approval. Rates, program terms and conditions are subject to change without notice. Not all products are available in all states or for all loan amounts

**Waiver and Risks of Refinancing:** Applicable penalties and risks vary based on the terms of your original loan. the terms of your new loan collateral requirements, etc.

Before choosing to refinance, borrowers subject to a pre-payment penalty on their existing loan should carefully consider the cost of paying the significant penalty associated with refinancing during the pre-payment penalty period

Refinancing or taking out your home's equity may increase the total amount of monthly payments and/or the total amount paid when compared to your current situation

You may realize interest payment savings when you make monthly payments towards a new, lower interest rate loan in an amount equal to or greater than what you currently pay on your existing mortgage loan

The above benefits of a loan for debt consolidation depend on your individual circumstances and your actual debt payments. You may realize interest payment savings when you make monthly payments towards the new lower interest rate loan in an amount equal to or greater than what you previously paid towards the higher rate debt(s) being consolidated. Keep in mind, though, while your monthly payment will be lower in the long term you will be paying more in interest because the debt is extended over a longer period of time

The University of Phoenix's parent company Apollo Education Group, announced more layoffs Wednesday. Its revenue and enrollment both sank roughly 14% in its latest quarter compared to a year ago.

Apollo CEO Greg Cappelli held out an optimistic tone, but investors gave the stock an "F" for failing. The stock tanked more 20% Wednesday.

"While we face challenges in the second quarter we believe Apollo Education Group has the right long-term strategy in place," Cappelli said in a statement.

# Testing Your HP Fax Machine with the HP Fax Test Service

## Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print this document for easy reference by clicking the **Print** link in the upper right corner of this page.

## Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a Fax Issue, it is good practice to set the *Automatic Reports* option to **Fax+Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different ink-jet or all-in-one products, consult the product *User's Guide* for specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxme** (1-888-473-2963).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes, confirming that we received your fax. This confirms that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

## Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts, software, and operating systems. Fonts and graphics are not lost due to platform, software, and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

**Which is the correct order of steps for the following indirect proof?**

**Given.** $x + 5 > 18$

**Prove** $x > 13$

I. In both cases, the assumption leads to a contradiction. Therefore, the assumption $x \leq 13$ is false, so the original conclusion that $x > 13$ is true.

II. Assume $x \leq 13$

III. When $x = 13$, $x + 5 = 18$ and when $x < 13$, $x + 5 < 18$

# DriveSavers RAID Recovery Services

## Enterprise Data Loss Costs Businesses Billions

Organizations of all sizes store critical files on RAID (Redundant Array of Independent Disks) systems, which distribute data and parity among multiple hard disk drives. Unfortunately, even these redundant systems are not completely infallible. A RAID 5 configuration can only offset the failure of a single disk drive and cases of multiple drive failures happen more frequently than one might imagine.

When data is lost, critical data sets such as customer databases, accounting records, source code, test and measurement data, graphics and video files, and other intellectual property could take days, months or even years to recreate. According to estimates published by the US Government, enterprise data loss cost businesses nearly $105 billion in 2008.

## RAID and Encrypted Data Recovery Experts

DriveSavers Enterprise Systems Group specializes in recovering data from all operating systems and all types of high-capacity devices, including NAS, SAN, RAID, tape and multi-disk servers. Our engineers routinely rescue lost databases, ERP/accounting systems, mail servers and other mission-critical data for organizations of all sizes and have been trained and certified by leading, encryption vendors to safely recover file- and disk level encrypted data.

All recoveries are performed in DriveSavers ISO 5 certified cleanroom, the most sophisticated data recovery cleanroom in the industry. Thin, dust free, temperature- and humidity-controlled env ronment maximizes recovery success by protecting hard disk drive platters and delicate electronic components from "killer particles" while they are open and vulnerable to damage.

## Certified Secure Data Recovery

DriveSavers is the only data recovery company in the world that is SAS 70 Type II compliant, the corporate industry standard for an overall control structure. Every aspect of our facility and network is secure enough to protect personal and confidential data from security breach during the data recovery process.

DriveSavers also meets all HIPAA requirements (Health Insurance Portability and Accountability Act) upholding the highest standards of confidentiality and data protection required by the Healthcare industry.

SAS 70 Type II

## Lost Critical Data? We Can Save It!

Since 1985, computers around the world have relied on DriveSavers to recover lost data from storage devices that have crashed, failed mechanically, become physically damaged or are logically corrupted. Clients such as Bank of America, NASA Goddard Space Center, the Department of Defense, Lawrence Livermore Labs and the Smithsonian Institution have all trusted DriveSavers with their critical data.

If you have lost critical data, call DriveSavers, the worldwide leader in professional data recovery.

## Notice to Employee

**Refund.** Even if you do not have to file a tax return, you should file to get a refund if box 2 shows federal income tax withheld or if you can take the earned income credit.

**Earned income credit (EIC).** You may be able to take the EIC for 2016 if (a) you do not have a qualifying child and you earned less than $13,460 ($18,470 if married filing jointly), (b) you have one qualifying child and you earned less than $35,535 ($40,545 if married filing jointly), or (c) you have two qualifying children and you earned less than $40,363 ($45,373 if married filing jointly). But you may not owe any tax or get a refund even if you qualify for the EIC. Also, you may be able to take the EIC for 3 previous years. For more information, get Publication 596, Earned Income Credit (EIC).

**Your EIC amount.** You cannot take the EIC if investment income is more than $3,400. **Any EIC that is more than your tax liability is refunded to you**, but only if you file a tax return. If you file a return and qualify, you may get up to the amount shown in the EIC Table. Be sure you use the correct number of children when figuring the credit. You cannot claim the EIC if your filing status is married filing separately. You must also have a valid social security number (SSN). You cannot take the EIC if you are a nonresident alien, unless you are married to a U.S. citizen or resident alien and you choose to be treated as a resident alien for tax purposes. If you have a child who lived with you for more than half of the year, that child must have a valid social security number (SSN). You cannot take the EIC if you file Form 2555, 2555-EZ, or 4563, or if you exclude income from Puerto Rico.

**Advance EIC.** If you expect to qualify for the EIC, you can get part of it with your pay during the year. Ask your employer for Form W-5 and the booklet, Publication 596. Your employer must give you the booklet if you ask for it. Your employer will figure your advance EIC payment based on the information you give on Form W-5. Your employer will include your advance EIC payment with your wages, but will not withhold income taxes, social security tax, or Medicare tax from that amount. You must file a tax return and attach Form W-5 to it. Your employer must stop making advance EIC payments to you if you do not give your employer a new Form W-5 by the end of February.

**Clergy and religious workers.** If you are not subject to social security and Medicare taxes, see Pub. 517, Social Security and Other Information for Members of the Clergy and Religious Workers.

**Corrections.** If your name, SSN, or address is incorrect, correct Copies B, C, and 2 and ask your employer to correct your employment record. Be sure to ask the employer to file Form W-2c, Corrected Wage and Tax Statement, with the Social Security Administration (SSA) to correct any name, SSN, or money amount error reported to the SSA on Form W-2. If your name and SSN are correct but are not the same as shown on your social security card, you should ask for a new card that displays your correct name and any SSA office or call 1-800-772-1213. You can also visit the SSA at www.socialsecurity.gov.

**Credit for excess taxes.** If you had more than one employer in 2016 and more than $6,321.60 in social security or Tier 1 railroad retirement (RRTA) taxes were withheld, you may be able to claim a credit for the excess against your federal income tax. If you had more than one railroad employer and more than $3,034.80 in Tier II RRTA tax was withheld, you also may be able to claim a credit. See your Form 1040 or Form 1040A instructions.

# Windows® Fax and Scan

[illegible]

[illegible]

Fax and Scan lets you send and receive faxed documents on your computer or over the Internet without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started

1. Connect a phone line to your computer.

   If your computer has a modem built in, connect the phone line to the modem jack. If you have a modem in your computer, connect the phone line to the modem that you want to use for faxing.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the New Fax wizard to enter recipient fax numbers and then when you're done, click **Send**.

To receive faxes, you must configure Windows Fax and Scan to receive faxes. For more information, see the Windows Fax and Scan Help topic on receiving faxes.

After you've added a number of faxes to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for clearer results. You can also fax or e-mail a scanned file to someone else.

To get started

1. Put your document face down on the flatbed scanner glass, or face up in the document feeder. If you're using a scanner with a flatbed and document feeder, put your document in the feeder.

2. In Windows Fax and Scan, on the toolbar, click **New Scan**.

   Or, click **Tools**, and then click **New Scan**.

3. Follow the instructions in the New Scan wizard.

To find out more about Windows Fax and Scan, click the Help button on the toolbar. For information about other Windows features, click the Help button on the toolbar.

# Building A Solid Business Through Referrals

*You must understand that referrals are the lifeblood of professional selling*

KEY SUCESS PRINCIPLE

*No matter how artful or talented you are, you must follow a specific methodology to be successful in expecting and getting quality referrals*

***7 POWERFUL BENEFITS OF GETTING REFERRALS***

*There are 7 powerful benefits of having your clients referring business to you Referred clients are*

1) *easier to close*
2) *more trusting*
3) *less price sensitive*
4) *far less likely to complain*
5) *more loyal*
6) *more likely to remain clients longer than non-referred clients*
7) *already in the mindset to refer more business to you, since they were already referred to you*

So you want to test your fax software or fax machine, but you don't have a fax number that you can test with. Here is a list of free fax numbers that are setup specifically for testing your fax machine within the USA or Canada

These fax numbers will work on any fax machine or any type of fax software including FaxTalk

## Testing fax sending only

A web site at faxtoy.net is available that will allow you to send a fax test. Send a fax toll free +1-888-877-1655 or +1 (503) 200-1300 (Portland Oregon USA)

**NOTE Faxes sent to this number a publicly displayed for all to see on the Web site faxtoy.net -- Do not fax any sensitive, confidential or offensive material**

**Verifying your fax was received successfully**

Visit the Web site faxtoy.net and view the thumbnail fax. Click the thumbnail to view a full page of the fax. If you do not see your fax, use the browser refresh option to update the page. Your fax thumbnail should appear within a few minutes after a successful send.

## REAR SONAR SYSTEM OFF SWITCH (if so equipped)

The rear sonar system (if so equipped) is active when the ignition is in the ON position and the shift selector lever is in R (Reverse).

When sensors detect obstacles within 6 ft (1.8 m) of the rear bumper, a beeping tone is emitted.

The rear sonar system can be disabled by pushing the OFF switch. When the system is disabled, the indicator light on the switch will illuminate.

The system will automatically reset the next time the ignition switch is turned on.

See "Rear sonar system" in the "Starting and driving" section.

## POWER OUTLET

Passenger compartment

The power outlets are for powering electrical accessories such as cellular telephones.

The power outlets located inside the center console storage bin and in the cargo area are powered directly by the vehicle's battery.

The power outlets located on the side of the center console and in the 2nd row are powered only when the ignition key is in the ACC or ON position.

Open the cap to use a power outlet.

# Desktop Printer Test Sheet

Download and print this page

1 ) Open this page in your photo editing program. It should be 8 1/2 X 11 inches at 200 dpi. If your software change it, set it so that it is 8 1/2 X 11 inches

2) Print this page. Look at your printer preferences or settings if there is a setting for Center Page, select it

On most desktop printers, all or some of the darker gray border won't print and the page will be centered. This is ideal, and you won't have to make accommodations in your layout.

If this page prints vertically offcenter, but the light gray area prints, you will have to accommodate this in your folding and trimming. For Example

If this sheet prints with 3/8 inch at the top and 1/8 inch at the bottom, after printing the page you could:
1) Use the black line on the templates as a guide and trim each printed sheet to 8 X 10 1/2
2) trim 1/4 inch off the top before folding,
3) fold the sheet at the center of the live area (here it is light grey), and when the booklet is gathered and stitched, trim the outside edge
Using this sheet as the example, your final booklet would be either 4 1/4 X 5 3/8 or 4 1/4 X 5 1/4, slightly less than the theoretical 4 1/4 X 5 1/2

If this sheet prints with less than an 8 X 10 1/2 live, print, area here it is light gray, these templates will not work with your printer

**Movere serves as a powerful lens into your IT environment. You can view your data in aggregate — like a satellite image — as well as progressively zoom in to very specific details. Movere arms you with undisputable information.**

### Device Counts by Country

Movere shows device and license counts geographically. It can also be used to pinpoint allocation usage, show devices using non-standard or unsupported software, and more.

### SQL Server Database Mapping

Movere will group databases sharing the same name and present their collective size, number of copies and location.

### Azure Migration

Movere inventories and benchmarks each server as well as all software installed in real time, without any input from the user. Based on this, Azure Premium or Standard storage is recommended using the actual amount of non-OS storage attached to each server.

### Application and Workloads

Movere captures all vendor products and services present to facilitate and accelerate cloud readiness assessments.

### Why Movere Matters

Movere was designed to help IT leaders gain comprehensive visibility into their IT environments. Movere is a PaaS solution that enables data-driven business strategy and can help you with the following IT deliverables:

- Infrastructure management
- Cloud/hybrid planning
- Security and control
- Cost management
- Expense forecasting
- Privacy compliance
- BYOD/MDM

And these are they, who judge the stars of heaven,
[And raise their hands against the Most High],
And tread upon the earth and dwell upon it
And all their deeds manifest unrighteousness,
And their power rests upon their riches,
And their faith is in the gods which they have made with their hands,
And they deny the quick and the Lord of Spirits.

And they persecute the houses of His congregations,
And the faithful who hang upon the name of the Lord of Spirits.

## XLVII. The Prayer of the Righteous for Vengeance and their Joy at its coming

### CHAPTER 47

And in those days shall I have ascended the arms of the righteous,
And the blood of the righteous upon the earth before the Lord of Spirits.

In those days will I not only cover who the elect above in the heavens
Shall stand with one voice
And a pulpose and pray [and praise
And give thanks and bless the name of the Lord of Spirits
On behalf of the blood of the righteous which has been shed,
And that the prayer of the righteous may not be in vain before the Lord of Spirits,
That judgement may be done unto them,
And that they may not have to suffer for ever.

In those days I saw the Head of Days when He seated himself upon the throne of His glory
And the books of the lives were opened before Him
And all His host which is in heaven above and His counsellors stood before Him

And the hearts of the holy were filled with joy:
Because the number of the righteous had been offered,
And the prayer of the righteous had been heard,
And the blood of the righteous been required before the Lord of Spirits.

## XLVIII. The Hoard of Righteousness

### The Son of Man—the Stay of the Righteous: Judgement of the Kings and the Mighty

### CHAPTER 48

And in that place I saw the fountain of righteousness
Which was inexhaustible.
And around it were many fountains of wisdom:
And all the thirsty drank of them,
And were filled with wisdom
And their dwellings were with the righteous and holy and elect.
And at that hour that Son of Man was named
In the presence of the Lord of Spirits,
And his name before the Head of Days.

Yea, before the sun and the signs were created,
Before the stars of the heaven were made,
His name was named before the Lord of Spirits.

He shall be a staff to the righteous whereon to stay themselves and not fall
And he shall be the light of the Gentiles,
And the hope of those who are troubled of heart

All who dwell on earth shall fall down and worship before him,
And will praise and bless and celebrate with song the Lord of Spirits

# Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- *Anyone, anywhere* can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes cannot open files because they don't have the applications used to create the document.
- PDF files *always print correctly* on any printing device.
- PDF files always display *exactly* as created, regardless of fonts, software, and operating system. Fonts, and graphics are not lost due to platform, software and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

Random Stuff Sent From Your Fax Machine
Fax something interesting toll free to 1-855-330-1239 or 1-213-294-2943

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness

You can fax something interesting to 1-855-330-1239 (your boss will never notice, maybe) or 1-213-294-2943 (long distance to Los Angeles, California) and it should appear here within a couple of minutes. (It's a toll-free number if you're in the USA.) Keep it clean & legal.

Fax single page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

*Privacy Policy*: We hate spam and junk faxes and will absolutely not send you any unsolicited e-mail or faxes. We won't share your information with marketers or anyone else.

# 2012 Indoor Football League Player Contract

**IFL TEAM NAME** _____ **PLAYER NAME**_____

THIS CONTRACT is between the undersigned, hereinafter referred to as "Player" and the undersigned Team, (hereinafter "Team") as a member of the Intense Football League ("League"). The League is a voluntary association of member Teams who have joined the League and follow its rules. The Player is a skilled football player. The Team desires to secure the playing services of the Player and the Player and the Team have agreed to enter into that Contract on the following terms and conditions. In consideration of the promises made by each to the other, Player and Team agree as follows:

1 **TERM.** This contract covers one League football season, and will begin on the date of execution and ends on October 1 2012, unless extended, terminated, or renewed as specified elsewhere in this contract. Player's consent is not continuous with any previous League and/or Team employment. Player understands that by signing this contract, he has obligated himself to this Team until the time he is formally released or ends October 1 2012. If player is not re-signed or released by the date of October 1, 2012, the Player becomes a Restricted Free Agent.

2. **EMPLOYMENT AND SERVICES.** Team employs Player as a skilled football player. Player means, each employment. Player agrees to follow all Team and League rules and policies. He agrees to provide his best effort and loyalty to the Team, and to conduct himself on and off the field in a professional manner and such as will foster public good will toward the Team and League. Player will report promptly and participate fully in Team's official mandatory mini-camp(s), official pre-season training camp(s), all Team meetings and practice sessions, and all pre-season, regular season, and post-season football games scheduled for or by the Team. Prior to beginning the season, Player will undergo a complete physical examination by a Team-designated physician. Upon completion of the season, Player will undergo a complete physical by a Team-designated physician or sign an IFL Exit Waiver Form. Player shall answer full and complete disclosure to the Team of any physical condition known to him which could impair his performance for the Team. If violated, Player will penalize for and play in any and all all-star football games sponsored by the League. Player may receive compensation for playing in an All-Star game. Player will not receive compensation for any League scheduled preseason games. During the term of this contract, Player will not participate in any other form of full-contact football game or non-sanctioned all-and agents without the permission of Team. Additionally, Player will be subject to all league rules and regulations including limitations and may be not from your/in your first practice players from signing with an IFL team other than their toward team.

3. **PAYMENT WHILE ON ACTIVE ROSTER.** IFL players will be paid up to and not to exceed $325 per League Game while on the Team's Active Roster. Player will also receive a bonus of up to $25 for each game won by the Player's Team while he is on its Active Roster. While Player is on the Inactive roster, in Team's sole discretion, Player will receive an amount of not to exceed $50 per game. A team may designate up to 4 Inactive players. In addition, teams may provide housing and meals to the Player as outlined in the IFL Operations Manual. **The player agrees and understands that the payment amounts described in this section (Section 3) are the maximum compensation. Any compensation in excess of the maximum compensation listed, or any other form of compensation not not acceptable to the League and will constitute immediate termination of this contract, and the suspension of the player for a minimum of one calendar year.**

4 **DEDUCTIONS, FINES.** Any advance made to Player will be repaid to Team, and any properly levied Team fine or League fine against Player will be paid to such on demand or by means of deductions from payments due to the Player. Deductions will be made for lost or misplaced gear in the Player's control, including uniforms, mouth guards and socks.

## Troubleshooting Steps

The steps below will help you resolve most fax issues.

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain unplugged for 30 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the phone jack and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring.
- If using an All-in-One device, connect the device from PC.

## Further Assistance

If you need further assistance using your Vonage Fax Service, we are always available to help.

Rating: 2/5 The Jury is out

Pros: Seems to be a real fast laser unless and be.

Cons: Customer support is an oxymoron. They do not know the product and read from a room full scripts when the software is all to blame with regard to actually setting up the printer. Wasted over hours and passwords on NO ONE in Tampa, no seems to know of or know you shouldn't call a product whose name supports Linux and if you include software it better work and everyone should know how to use it.

Manufacturer Response:
Hi very nice.

Thank you for purchasing the Samsung SCX-4729FD printer.

According to the Owner's Manual, the user password should be admin/sysadmin. by default.

Rating: 3/5 Very Expensive Toner

Pros: Just two operation

Cons: Expensive to use. Original cartridge was rated at 1000 pages and I got 750. My previous laser printer gave me 5000 to 8000 copies per cartridge and cartridge cost less. Should have stuck with Xerox and Samsung. Customer chat service was helpful but their product knowledge is poor. I had to move problem myself. Use caution to lack of Samsung site.

In January of 2008 Carter Motors, Inc. began taking steps to become a more environmentally friendly company We became a significant sponsor of The Mountain to Sound Greenway and its scenic byway along the I-90 corridor stretching from Seattle to Central Washington. By planting one tree for every test drive and three additional trees for every Volkswagen & Subaru sale, we are on the road to planting a forest one test drive at a time In our first year of involvement in the Carter Carbon Neutral program, we have planted over 12,000 trees, offsetting the carbon footprint of each vehicle sold

With your assistance, we are embarking on a new step in our commitment to protecting the Puget Sound environment. We are now providing car wash coupons from Brown Bear Car Wash in lieu of washing your recently serviced car at our facility. Previously, we were performing over 100 car washes per day using thousands of gallons of water, disposing of the waste water and detergents through Seattle's sanitary sewer system Brown Bear Car Wash is committed to protecting our precious Puget Sound ecosystem and is a leader in this region of conserving our natural resources through using waste water purification and recycling technologies By outsourcing our customer car wash activities to Brown Bear Car Wash and their 20 conveniently located Greater Seattle facilities, we feel that this is another step to helping our environment.

In the event you receive a customer satisfaction survey from your vehicle's manufacturer, we ask that you respond to their question concerning vehicle cleanliness with a 10, the highest score

With your help we will be on the road to carbon neutral and helping to keep the Northwest green

Our Father, which art in heaven,
hallowed be thy name,
thy kingdom come,
thy will be done,
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses,
as we forgive them that trespass against us
And lead us not into temptation,
but deliver us from evil
[For thine is the kingdom,
the power, and the glory,
for ever and ever ]

UNITED STATES SENATE
WASHINGTON D C

ORRIN G HATCH
UTAH

March 4 2010

The Honorable John McCain
241 Russell Senate Office Building
Washington, DC 20510

Dear John

Thank you for taking the time to talk with me this afternoon about S 3002 the Dietary Supplement Safety Act of 2010

I am pleased that you understand my serious concerns with your bill Also I want to thank you for agreeing to withdraw your support for the provisions of S 3002 that I believe would do great harm to the dietary supplement industry and work with me on solutions that will truly help dietary supplement consumers without injuring this important industry More than 100 million Americans regularly consume dietary supplements as a means of improving and maintaining healthy lifestyles Therefore consumers need access to these products is extremely important to them

As you know I authored the 1994 Dietary Supplement Health and Education Act (DSHEA) which ensures that individuals retain access to safe supplements and information about their use DSHEA provided the Food and Drug Administration (FDA) with all the authority they need and more authority than they had ever had previously to remove harmful substances from store shelves and ensure consumers have access to safe supplements

As we move forward on this important issue I want to work with you on calling for the full enforcement of existing laws such as DSHEA so Americans will have unimpeded access to safe dietary supplements and bad actor companies are removed from the market immediately

I'm counting on you working with me to make sure this important industry does not fall prey to over regulatory regimes and mounds of costly government bureaucracy I believe that if you and I will work together we will be able to make a difference for good in the dietary supplement industry In short we will ensure safe supplements are always available to consumers and the dietary supplement industry will be able to continue to innovate and grow

John thanks for your willingness to resolve this important issue

Sincerely

Orrin G Hatch
United States Senator

bo ... cough, c ... infectious tracheobronchitis is an irritation of the trachea (windpipe) and large airways of the lungs. The cause is believed to be a virus, and the disease spreads easily and rapidly from one dog to another. Although you may not seem to be sick, you will notice the sudden onset of a harsh, deep cough, followed by gagging. Recovery is usually through medication, which may be necessary for several weeks. Proper vaccination has reduced the incidence of this condition. Although our Bordetella vaccine is good for one year, many kennel facilities require vaccination every six months. Check with your kennel before boarding

The Division of Services for People with Disabilities (DSPD) and the Division of Child and Family Services (DCFS) have requested and provided the North Eastern Services to protect the people we serve. It is imperative that North Eastern Services is in compliance with these requirements and policies to provide foster home services.

As a foster home provider you are responsible to ensure that everyone who lives in the house over the age of 18 years old, must have an approved background check prior to placement of clients. In addition, anyone will be spending the night in the house who is over the age of 18 years old also have an approved background check through North Eastern Services prior to staying in the house.

It is also your responsibility as the foster home to make sure your background stays current each year. North Eastern Services may notify foster homes about background checks, 90 days prior to background expiration. There is not a defined amount of time that licensing and certain backgrounds as well as age ranges even value so renew approximately 90 days prior to any background checks expiring to ensure there are no backgrounds that expire prior to renewal.

Each background check expires. North Eastern Services must remove clients from the foster home starting until all requirements, the background comes through approved by licensing.

Please provide the full name, age, and relationship of everyone who lives in the house (including yourself) on the form below. We appreciate cooperation every one of our foster homes for your dedication to the children and work with us.

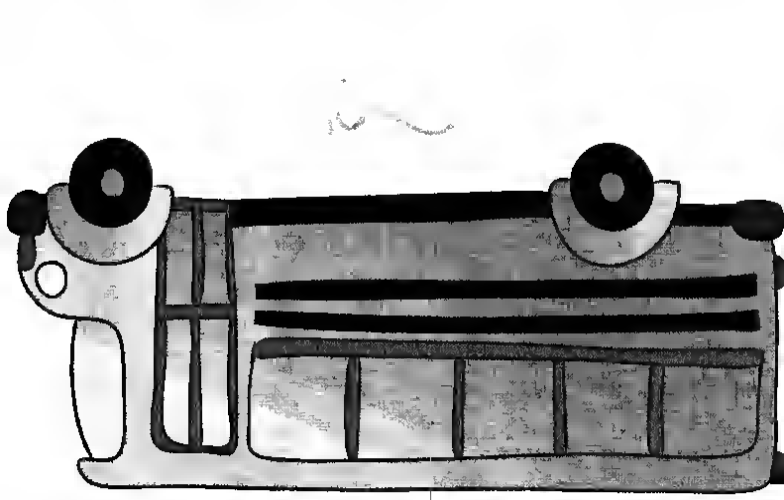
**Notes:**



# Instructions for Using Liquid Colostrum

Topical Uses

**Bloody nose:** Liquid colostrum will stop nosebleeds quickly. Wad tissue paper of a size to fit snugly in nostril. (Do not use the tissues that have lotion, they do not absorb well.) Soak tissue paper with colostrum and insert in bleeding nostril. In about five to ten minutes remove the tissue paper. The bleeding should be stopped leaving the nostril unclogged and with free and easy breathing. If the bleeding has not stopped the wad may not have been of sufficient length to contact the bleeding source. Heavy, stubborn nosebleeds may require light pressure along with the colostrum and two or three repeated applications. After the bleeding has stopped, clearing the nose by blowing should not cause the bleeding to start again.

**Skin injuries and open wounds:** Liquid colostrum will instantly stop the pain of skin injuries and dramatically speed healing of open wounds. To see it work, place a drop or two on a skin injury. You can see healing take place as you watch. To heal an injury, soak a pad of folded tissue paper (non lotion type) with the liquid colostrum and cover it with plastic wrap to keep it moist longer. To heal a skin injury as you sleep, hold the plastic wrap in place with Band Aids or medical tape, and the next morning the injury will be healed to a great extent. This is especially helpful with those painful finger cuts that seem to never want to heal. Do not use with puncture wounds.

**Eczema:** Wet affected area several times daily. For best results wet Kleenex tissue with the liquid, cover the affected area with it, and lay plastic wrap over it to slow drying and increase absorption.

**Acne and rosacea:** Apply Synertek liquid as above. Internal usage of the lozenges or powder is also recommended.

Internal Use

**Suggested use for compromised or fragile conditions**
(This initial, four-week regimen requires nine bottles of the liquid.)

First 14 days: One tablespoon three times a day. (3 teaspoons equals 1 tablespoon)
Second 14 days: One tablespoon twice a day.
Then: One teaspoon three times daily, or you may wish to try switching to the lozenges or powder.

**Additional usage notes:** If taken straight, recommended to keep in mouth 30 seconds before swallowing, however may be mixed and drank in juice.

**Refrigerate when received.** Shelf life is at least twelve months.

**Product note:** All Synertek Colostrum is 1st milking colostrum from the first six hours after calving. There is no higher quality colostrum anywhere at any price.

## Gathering Employee Information

To help you set up payroll, have each employee complete Form W-4 (attached). Use the completed form to record the employee's filing status and allowances for federal income tax withholding.

Also, have each employee complete an I-9 (attached). This federal form verifies the employee's eligibility to work in the U.S. Required. Keep the completed form on file (you do not need to enter any information from the form in your payroll account).

Your state might require each employee to complete additional forms. For more information, click **Taxes & Forms** in the navigation bar at the top of the page, then click **Employee Setup**.

# Enroll in ePolicy and $$$$AVE 10% on your Auto Insurance! Here's how:

1. Go to https://www.allstate.com Upper right hand corner click on My Account If you already have a My Account set up, login using your username and password If you do NOT have My Account set up click on Register NOW
2. Once you complete registration log into your account
3. On the main screen where you see a list of your policies go to the "Billing" tab at the top
4. A drop down box will appear with several options choose the one that says "eBill"
5. Look for your auto policy, and you will see two columns, "eBill" and "ePolicy"
   a. "eBill" you will want to check the box to enroll if you want your bills sent to your e-mail address instead of paper bills sent through the mail **IF YOU WANT TO KEEP GETTING YOUR BILLS BY MAIL DO NOT CHECK THIS BOX!!!**
   b. "ePolicy" you will want to check this box to enroll if you would like to have online access to your policy Instead of sending you a paper copy of your policy at renewal, they will post it electronically instead ***Very important!!! This is the box you want to check for your auto policy to save the 10%!***
6. A couple of things to note
   a. This discount will not post to your policy until your next renewal If you enroll in ePolicy prior to your next renewal and your next renewal has already issued, your discount will appear within the next 30 days.
   b. Please also note that this discount only applies to Standard Auto customers, it does not apply if you are in our Non-Standard program Also this discount does not apply to other policy types (I.e homeowners)

**VERY IMPORTANT!!! Once enrolled in ePolicy, your ID cards for your vehicles will no longer be mailed to you. You will need to log into your My Account and print them off.**

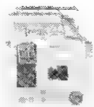
# Documents Stack

Welcome to Mac OS X Leopard

The Dock in Leopard has a sleek new look and a new feature called Stacks. With Stacks you can quickly access important and frequently used files right from the Dock.



Stacks are simple to create. Just drag any folder to the right side of the Dock and it becomes a stack. Click a stack and it will spring from the Dock in either a fan or grid. To open a file in a stack, just click the file once.

Mac OS X Leopard includes two pre-made stacks called Documents and Downloads. You opened this file from the Documents stack. The Documents stack is a great place to keep things like presentations, spreadsheets, and word processing files. You can drag and drop files to the stack or save them to the stack when you save a document in an application.

Documents Downloads

Stacks automatically display their contents in a fan or grid based on the number of items in the Stack. If you prefer one style over the other, you can set the stack to always open in that style. Stacks intelligently show the most relevant items first or you can set the sort order to make sure the item you care about most always appear at the top of the stack. To customize a stack, position the pointer over the stack icon and then hold down the mouse button until a menu appears.

To delete a file from a stack, just open the stack and drag the item you wish to remove to the Trash. In fact, when you're done reading this document, feel free to throw it out.

## SPA2102 FAX configuration

Submitted by admin on Mon, 07/22/2010 - 20:36

The Cisco/Linksys/Sipura SPA2102 works very well for faxing. As with all VOIP faxing solutions, there are a few fax machines it has problems with. Upgrading to the current firmware release and updating any certain configuration settings make a big difference.

Newer firmware seems to work better for faxing. I currently use 5.2.10

After upgrading, open the unit's web page, go to Admin. Advanced, then follow these notes:

Web setup
Change the order to chip manual
Disable web server (if applicable)
Set vlan if necessary
Save

Voice tab
Provisioning,
Set profile rule (something like ftp://server/SPA)
Set upgrade rule
Exit
Call waiting off
Codec Ulaw
Use first codec only
Fax enable ECAN
Max gain (+x,b.) -- as illustrative for your environment

Finally, in FreePBX v2.7 set the system fax detection to disabled, and if you have Sangoma hardware, turn off hardware fax detection
